When the entire delegation met in the lobby to discuss the situation, all were surprised at Northen's groat strength. Some said it was a good evidence of what his strength on a full vote over the state would be, while others thought that the names, being largely from towns, did not show fully Livingston' strength with the fhrmers. However, they all thought it as complete as it was possible to make, and that Georgia should feel proud of having such an enterprising paper as THE CONSTITUTION.

Then the members proceeded to guy one another, and as usual, Mr. Blount was the man who had to stand the lion's share of the funny business. Each one of the members who had received votes, magnanimously volunteered to turn over their strength to Mr. Blount, as he had beat them all, and as he was in years and service the father of the delega-

Mr. Outhwaite, of Ohio, spoke on the case today, and so thoroughly convinced a number of republicans of Cate's election that a dozen of them, it is said, will absent themselves tomorrow in order to get out of voting against their convictions. Believing this to be true, Judge Crisp telegraphed to all the democratic absentees to be on hand tomorrow to vote. However, Reed is applying the party lash vigorously, and has also sent out numerous telegrams. The probabilities are that Reed will get his men in line by tomorrow afternoon

They organized by the election of senator Cameron as chairman, and Representative Smith as secretary. The session is secret, and it is not known what line of procedure they will choose. The commission, appointed a few days before the treasury matter was brought to notice, to examine all the offices, and which consists of Hon. R. C. Patty and Hon. A. H. The party was met by the mayor and addermen and informally welcomed at DeSoto hotel. Many cittzens called to pay their respects. The party remains here till tomorrow

Warmoth Confirmed. Washington, March 3.—The senate spent most of its time in executive session today, discussing the nomination of ex-Governor H. C. Warmoth to be collector of the port of New Orleans. Senator Eustis, of Louisiana, was the first speaker. He approved the committee's favorable report, and eulogized the nominee highly. He was followed by Senators Sherman and Vest, who opposed confirmation. Senator Frye, chairman of the committee on commerce, closed the debate, and is said to have made a strong presentation of the case in favor of Warmoth. The vote on advising and consenting to the appointment stood: Ayes. avor of Warmoth. The vote on advising and consenting to the appointment stood: Ayes, 39: noes, 14. Governor Warmoth received the votes of all the republican senators in the chamber, except Mr. Sherman, Farwell and Wilson, of Iowa. Seven demograts, led by Eustis, voted for confirmation.

DEATH ON THE RAILS.

Horrible Accident on the Fort Wayne Rail-road-Other Disasters.

Massilon, Ohio, March 3.—A disastrous wreck occurred on the Fort Wayne road, at Lakeville, west of this city, at 1 o'clock this morning. The third section of a train broke down, and the fourth section of the same train crashed into the rear end. Immediately after the crash, a tank car of gasoline, in front of the caboose, exploded and scattered the burning liquid over the debris, which took fire and burned fiercely. On the engine were Engineer John Cowan, Fireman Harvey Galehouse and Head Brakeman Edward Miller. All of them were killed and their bodies burned to a crisp. Eighteen loaded cars were burned. The heat was so intense that it melted the bell on the engine of the fourth section, and it run down n a molten form over the boiler. The ties were burned for a distance of 500 feet, and the track was bent and drawn into all kinds of

Seven cars and locomotives were piled up and the cars burned. Ten persons were more or less injured. The engineers and firemen of the telescoping trains escaped by

THE SEAL FISHERY RING. The first shot of the Indiana Seal Fishery company at the administration, came today in the shape of a resolution introduced in the senate by Senator Voorhees, directing the secretary of the treasury to disclose the nature of all the bids submitted, with the accompanying papers and propositions. The campany, aposed mainly of Indiana republicans, have thus selected a leading Indiana democrat to conduct their fight. This has caused a great deal of comment, as Senator Voorhees has many political reasons to push the fight against the president, and the secretary of treasury to the

Heavy Snow Storms in New England-Cold Weatner Everywhere.

Weather Everywhere.

Boston, March 3.—A very heavy snow storm has prevailed in the greater portion of New England since yesterday. At noon today dispatches indicate a practical cessation of the storm, at most points clearing, colder weather following. Snow on a level has been from twelve to eighteen inches. The highways are said to be in a bad condition, and trains were somewhat delayed, and for the first time this winter snowplows were a necessity. Today is town meeting day in many parts of the state, and it is expected the meetings will be materially interfered with by the storm.

The snow storm is over in Boston, and the sun is shining. The snowfall in this city is given as eighteen inches.

THE ORANGE TREES NIPPED.

St. Augusting, Fla., March 3.—The weather is still frosty, but is moderating. The mercury was at twenty-five degrees last night. Bananas, guavas and early truck gardens are badly damaged. The orange trees are badly nipped, and in some localities the trees have been killed. There will be a great loss on next season's crop, as the trees are all in bloom.

MONTGOMERY, Ala., March 3.—[Special.]—
Cold weather has greatly injured fruit and
vegetables. Corn has not been planted to any
great extent, and cotton not at all.

DAMAGE TO TRUCK.

MOBILE, Ala., March 3.—The frost Saturday, Sunday and Monday mornings, including the hard freeze of Sunday morning, did much damage to growing truck crops in this locality. It is thought cabbage of the first crops is damaged fully twenty-five per cent. All small vegetables are killed.

THE FRUIT KILLED.

New York, March 3.—Futures opened a little weak under the depressing report from Liverpool, but small receipts at New Orleans checked the selling movement, an values slightly improved. But business was very dull. Buyers and sellers were equally cautious, and business was notably small. South. ern markets were in some cases dearer, and the interior movement very small. Cotton on spot was dull.

The Great Cigarette Trust.

RALEIGH, N. C., March 3.—[Special.]—A special from Durham says it is now an established fact that the great cigarette manufacturing concern of W. Duke, Sons & Co., has sold its plant, as in fact have all the other large cigarette factories in the country, to the American Tobacco company, which has a capital of \$5,000,000, to continue the same business. The Durham factory will be continued under the old management.

SPOONER ON THE BLAIR BILL. States Only Have the Right to Regulate Edu-

cation. WASHINGTON, March 3 .- Mr. Voorhees offered a preamble and concurrent resolution reciting that in the recent lease of the fur seal islands of Alaska to the North American Commercial company certain provisions of the law were not complied with and directing the secretary of the treasury to furnish to the senate complete copies of all the bids for the lease with all accompanying papers, all testimony, memoranda, arguments, letters and correspon-dence with the holders; and that the secretary refrain from executing or delivering the leas to the North American Commercial company until the subject be inquired into by the sen ate. to the finance committee, as that committee

Mr. George was the principal opponent of the bill.

BLAIR'S BILL AGAIN. At 2:20 the senate resumed consideration of the Blair educational bill, and was addressed by Mr. Spooner. He had voted, he said, once in favor of the bill, not without some misgiving as to its policy. When it came again be-fote the senate, he had felt constrained (after full reflection on the subject) to vote a it, and now as it was once more pending for action, he was impelled to vote against it, and desired to state his reasons for doing so with brevity and directness. He agreed with the senator from New Hampshire as to the neces-sity of education among the masses, and could not withhold a tribute of his respect and ad-

not withhold a tribute of his respect and admiration for the superb industry, courage, ability and constancy with which that senator has pressed the subject on the consideration of the senate and of the country.

He had no difficulty with the constitutional objections urged against the bill. He admitted that the matter of education of the children of a tatte was within the province and ted that the matter of education of the children of a state was within the province and jurisdiction of the state. He agreed that it was for the state, not for the federal government, to declare what the school system of the state should be. No one would contend that it was within the constitutional competency of congress to declare what should be the school age of a state, or pass a law (that it could enforce) for compulsory education in a state. But it did not follow from that, that congress might not grant lands, or money derived from the sale of lands, to aid the states in educating their children. Such grants of land and of money had been made repeatedly.

DEFENSE OF THE PRESS. The newspaper press could have no interes against the general interest of the people. It could not have an interest against universa knowledge. If it had any special interest or the subject it was in favor of the proposition that every man, woman and child in the United States should not only be taught to read, but that they should be taught to read a United States should not only be taught to read, but that they should be taught to read a newspaper. The press felt the public pulse, and knew what interested the public eye. He did not think that the press had gauged correctly the information contained in the senator's (Blair's) speech. He believed that no newspaper could do better service than to lay before its readers the entire speech of the senator. In learning, in research, in analysis, in statistical information, it was worthy of the senator, and that was saying all that could be said. But the fact that the press had not done it, was, to his mind, evidence that the people of the country were not today (as they had been years ago) intensely interested in favoring the bill. In the west there had been a great change in public sentiment. Among prominent republican journals in the west which formerly advocated but now opposed the bill, Mr. Spooner named the Chicago Tribune, Milwaukee Sentinel, St. Paul Pioneer Press, and the leading republican paper of Omaha. Several of the southern states, he said, were opposep to it, through their senators. Leading newspapers of the south were no longer in favor of it

Referring to Mr. Blair's suggestion that, as the pensions were paid almost exclusively in the north, his bill would tase somewhat to make up for that to the southern states. Mr. Spencer said that he could not for a moment favor the bill on that ground

MR. BLAIR INTERRUPTS.

Mr. Blair disclaimed urging the bill on the ground that it would equalize the pension burden, which, by the way, he said, Mr. Davis's statement on Friday had estimated at twice as much as he (Blair) had then supposed it might be, and he believed that even that estimate was twice too low.

be, and ne believed that even that established was twice too low.

Mr. Spooner went on to argue that the non-enrollment of children of the school age in public schools was no criterion of what was being done in the line of chucation, and cited the fact that in Now York the carollment was

mly fifty-seven [per cent. of the school age

Population.

That fact was explained by Mr. Hawley saying that enrollment did not include the large number of children attending private and denominational schools.

Mr. Biair contended, however, that non-enrollment showed that the children were not being educated, and he added that the childhood of the country was growing up in Ignorance both north and south.

Mr. Sponger went on to speak in terms of

heod of the country was growing up in ignorance both north and south.

Mr. Spooner went on to speak in terms of praise of the provisions for common school education in the southern states and said that the people of those states had not only been doing well in the education of the white children, but had been doing well in the education of colored children. He had seen, he said, no stronger condemnation of the measure than the argument of the president in his amiual message, and which the senafor from New Hampshire considered as an argument in its favor. The president had said: "Such aid should be, as it always has been, suggested by home exceptional conditions." Were there, Mr. Spooner asked, exceptional conditions which justified the appropriation of money for school purposes to Kansas, to Wisconsin, to New York, to California, to Illinois, or to Iowa? If congress were to offer to appropriate it, it would be laughed at. He congmented upon the fact that this bill did not contain a provision which former bills had contained, requiring the school books in use to have the approval of the secretary of the interior. He supposed that its absence now was to be construed as a concession to the south in order to obtain votes for the bill. Mr. Spooner speke for two hours; and at the close of his spoech, Mr. Blair took the floor to 'reply to some of his points.

After a brief session for consideration of executive business, the senate at 5:55 adjourned.

Mr. Perkins, of Kansas, moved to suspend the rules, and put upon its passage the senate bill for the organization of the territory of Oklahoma, with the house substitute therefor. Messrs. Mansur, of Missouri, Washington, of Tennessee, Springer, of Illinois, J. D. Tayioz, of Ohio, Baker, of New York, and Perkins, of Kansas, urged the necessity for the speedy passage of the bill, and Mr. Barnes, of Georgia, Buchanan, of New Jersey, Holman, of Indianna, Hare, of Texas, and Hooker, of Mississippi, depreciated the passage of such an important measure under suspension of the rules, when there was a little opportunity for rules, when there was a little opportunity for

debate and none for amendment.

Messrs Tarnsey, of Missouri, and McRae, of Arkansas, gave the bill qualified approval.

The motion to suspend the rules was lost—yeas 156, nays 96—not the necessary two-thirds in the affirmative.

HOUR'S BALLOT BOX.

Mr. Houk of Tennessee, called up the contested election case Featherstone vs. Cate. Mr. Outhwaite of Ohio, in advocating the case of the contestee, exhibited what is known as the double action ballot box, which the republicans assert was used in twenty-one precincts, and which enables the precinct judges to cast aside the vote of any person they may see fit. He showed the manipulation by which such judges could deceive a voter, and lead him to believe that his ballot has been properly deposited. He quoted from the returns of precincts where, it is alleged these boxes were used in order to show that the vote for Featherstone far exceeded that for Cate, and he further asserted that there was not a particle af evidence in the case to show that such a box as he now presented was used in the election. The ballot box had been brought into the case by the attorney for the contestant, but nobody had told where it had come from. Speaking of ballot boxes, some people were inclined to think that if a certain ballot box, with the accompanying forgery, had been kept out of the Ohio campaign the result of the late election might have been different.

Pending further debate, the house, at 5:15, addiourned. Mr. Outhwaite of Ohio, in advocating the

REPUBLICAN LEAGUE CLUBS. Delegations Arriving at Nashville to Attend

NASHVILLE, Tenn., March 3 .- The streets of Nashville are filled with strangers, who come to attend the national convention of the reablican league clubs, which meets tomorrow. All day long delgations were coming in, and tonight representations from nearly all republican organizations in Pennsylvania, Indiana, Louisiana, South Carolina, West Virgina, Tennessee, and Kentucky had arrived. Dele. gations from New York, Illinois, Missouri, Ohio, Nebraska, Mississippi, Delaware and the New England states were delayed by the floods, but will reach here in time for the opening of the convention. The Pennsylvania gates signalized their arrival at Duncan's hotel tonight by singing, "My Country 'Tis of Thee." They were heartily cheered. To-morrow morning the Pennsylvanians will hold a caucus and arrange to present the name of Edwin S. Stewart, of Philadelphia, president of the Pennsylvania state league, for president of the national organization. They have been promised the support of a number of delegates, and a strong fight will be made to elect him. The convention will be in session at least two days, and fully 500 delegates are aveceted.

The Iniquitous Features of Double Taxation

to Be Retained.

NASHVILLE, Tenn., March 3.—[Special.]— The defeat of all measures pertaining double taxation was foreshadowed today two features in the house proceedings. The first was the adverse report by the finance first was the adverse report by the finance ways and means committee upon every bill they had under consideration. The second was the introduction by Mr. Lanage of a resolution setting forth that agents, employes and attorneys of manufacturing companies had addressed a communication to the governor, complaining of double taxation; that the thirteenth section of the assessment is the only part of that law complained of; that the extraordinary session can consider under the governor's call, and that said corporations be required to point out in said section what word or clause is contained therein, of which they complain. There was little other business except the passage of bills allowing Johnson City and Greenville to issue bonds, and the rejection of a bill to prevent the stealage of cotton. Mr. Odlum introduced another election bill.

Tennessee Republicans.

NASHVILLE, March 3.—The republican state executive committee met here today and selected Colonel H. S. Chamberlain, of Chattanooga, as chairman, to succeed the late Joseph R. Dillin. The committee authorized the chairman to call a convention on June 18th to nominate a candidate for governor.

TO Resume Her Powers in August Next.

TO FRAME NEW CONSTITUTION

The Troublotts Times of 1868 Recalled,

WHEN BAYONETS RULED THE PEOPLE. JACKSON, Miss., March 3 .- [Special.]-The

legislature having adjourned and the treasury sensation having subsided, the chief feature of the work of the legislature, the calling of a constitutional convention for August 12th, is the main object of discussion by both the press and the people of Mississippi. THE PRESENT CONSTITUTION.

The present constitution was framed, as locally described, by "carpet-baggers, scallawags and negroes." In only four or five counties in the state did the white people take any interest in the election. Then delegates were elected, and the few democrats who were returned retired in a body long before the final adjournment.

Prominent among the number who quitthat convention, leaving the republicans to run the convention were W. L. Hemingway, the late treasurer, and Hon. J. W. C. Watson, still one of the leading men of the state, and who had

been a member of the confederate states senate.

The constitution so adopted was defeated in the autumn of 1868, and President Grant or-dered a resubmission in 1869. After eliminating some features it was adopted, and under republican rule the state continued until 1876, when the democrats came into power. AGITATING A NEW CONVENTION.

Since then the mass of the white people thought that they should make a new constiaution, but the fact of a large negro majority has played its part to keep it off till this time. The white counties have wanted it, and the negro counties have been afraid of it. The weight of official influence has been uniformally against it. Those in high positions, with long tenures of office before them, have ever been readier to stand by the present con-stitution than to take chances of being knocked out by a constitutional convention. Two years ago the friends of a new organic law, passed a bill through both houses, providing that the question as to whether a convention should be called or not, be submitted to a vote of the people. Those opposing any change, voted against the bill. Governor Lowry vetoed the bill, and it failed to pass over his vetoe. The question went to the people, and they have been handling it for the past two years. The state convention that nominated Governor Stone took no stand in the matter, further than to advise that it be discussed and made an issue in the selection of members of the legislature. Governo Stone, while not giving his opinion as to its advisability, pledged himself before his nomination to sign the bill should one pass, which he did in thirty minutes after

it reached him.

THE NEW CONVENTION.

The friends of the measure were in a decided majority when the legislature met, and boldly announced their intention of calling a convention outright by the legislature, without sub-mitting it to the people. Its opponents ad-vancing, camped on the ground where their enemies had bivouacked two years before and this time fought for leaving the question to the people. They lost, however, and the con-vention will be held.

done? In the first place it may be observed that at least a score of men will be members of this convention who, resting under the ban of disfranchisement in 1868, could not vote when the present constitution was adopted. Since the matter has been settled affirmatively, the factions have buried the hatchet, and seem to vie with each other in the furtherance of measures which will place the making of our organic law in the hands of leading men. Senators George and Walthall will both be nominated from the state at large without opposition, notwithstanding that their positions were as the antipodes on calling a convention, George favoring it and Walthall opposing it. Barksdale will be there, and the acknowledged rector of the Mississippi bar, Wiley Harris, who, after serving one term in congress thirty years ago, has refused all others since, will be sent from Hinds. Mr. Muldrow, Cleveland's assistant secretary of the interior, will go Irom Oktibbeha, and La-Fayette county is now insisting that she will send Justice Lamar. Nothing but his positive veto will prevent his being there. General Featherstone and General West will be there. Lieutenant-Governor Sims will probably represent Lowndes. Jeel P. Waller will certainly be sent from Meridian.

In short, the convention promises to be th most able body that ever assembled in the

THE QUESTIONS BEFORE IT. The white counties want a more democratic government. They want to elect judges by the people as well as railroad commissioners. In fact, they want the sovereign people to choose their own rulers or servants from cellar the garret. The appointing powers, as well as the absolute pardoning power, they want swept away. They want fewer offices and smaller salaries, the maximum of which must be fixed in the organic law. The white counties, not locally overshadowed by negro majorities, are opposed to any restrictions of suffrage as refers to a properly or educational qualification, but contend that it should go inte the constitution that each county should have one representative instead of the apportionment being based on population, as in the present constitution. Those in the delta, or black belt, who have favored a convention, and they are few, have wanted it to involve some scheme to limit suffrage, and that section will, now that the convention is to be held, contend for some such measure as that the voter must own property or be able to read and write. PRELIMINARY STEPS TO BE TAKEN.

B. C. Patty, chairman of the democratic state committee, and R. E. Wilson, secretary of said committee, are now arranging to call a meeting of their committee to nominate the fifteen delegates for the state at large, which, added to the delegates from the counties, puts 134 members in the body.

The Power of Taxation

The Power of Taxation.

RALEIGH, N. C., March 3.—[Special.]—The supreme court this evening decided a most important case, that of Redmond vs. the town of Tarboro. The point involved was whether or not the section of the constitution which provides that all taxes levied by any county, city

town or township shall be uniform ad valorem upon all property in the same, except property exempted by the constitution, includes moneys, credits, investments, etc., or whether it applies only to particular subjects which may be selected by the legislature for taxation. The court holds that it includes all solvent credits, investments, moneys, etc. This overrules the decision in the case of Pullen against Raleigh rendered some years ago.

SEVERAL IMPORTANT DECISIONS.

The Right of a Citizen to Sue a State In-volved.

Washington, Februry 3.—The supreme court today rendered a decision in the case of Bernard B. Hans, plaintiff in error, vs. the state of Louisiana, brought here on appeal from the circuit court of the United States for the eastern district of Louisiana. It is said that from ton to trade willion dellow remove the property of the court of the c from ten to twelve million dollars are involved in the case, the decision of which turns upon the important constitutional question of the right of a citizen to sue his own state. It is said that this question has never been decided.

Hans is owner of a considerable amount of consolidated lands of the states

said that this question has never been decided. Hans is owner of a considerable amount of consolidated lands of the states of Louisiana, and when the state issued these bonds it made provisions for the levy of a special tax to meet the interest and principal of these bonds. It furthermore declared the bonds to create a contract between the state and the bondholders which should not be impaired and declared that judicial power should be used whenever necessary to secure the levy and collection of the tax and payment of the bonds. The state constitution adopted in 1879, however, partly repudiated this agreement and directed that the revenue collected by the levy of the special interest tax should be diverted to defray the expenses of the state government.

Hans, who is a citizen of Louisiana, brought suit to have the new state constitution declared invalids of far as it impaired the contract between the state and the bondholders, on the the ground that it violated the constitution of the United States. The state set up the pleathat it could not be sued by one of its own citizens without its consent, and, the circuit court deciding the question in favor of the state, the case comes here for final decision.

Justice Bradley, in his opinion affiring this judgment, says that if, as plaintiff in error contends, he has the right to maintain the suit, because he is a citizen of Louisiana and not of some other state, then we should have anomalous results that incases arising under the constitution of the United States, a state may be sued in the federal courts by its own citizens, though not by the citizens of other states, for this is forbidden by the eleventh amendment. If this is the necessary consequence of the language of the constitution and law, the result is no less startling and unexpected than was the original decision of this court in the case of Chisholm vs. the state of Georgia, that under the language of the constitution was almost unanimously proposed, and in due course adopted.

In conclusion the court sa

and in due course adopted.

In conclusion the court says: "It is not necessary to enter upon an examination of the reasons or exediency of the rule which exempts a sovereign state from prosecution in a court of justice at the suit of individuals. It is enough to declare its existence. The legislative department of state represents its policy and its will, and is called upon by highest demands of divine and natural law to preserve justice and judgment and to hold inviolate the obligations of the state. Any departure from this rule, except for reasons most cogent (of which the legislature alone can judge), never fails in the end to incur the odium of the world and to bring lasting injury upon the state itself, but to deprive the legislature of the power of judging what the honor and safety of a state may require, even at the expense of a temporary failure to discharge public debts, would be attended with greater evils than such failure could cause. It would, in fact, deprive the state of that sovereignty and independence in the management of its affairs which are essential to its antonomy, and which is always understood to be its prerogative by all private parties that deal with it."

The court reversed judgment in the case of the state of North Carolina, and of Roberts, auditor, against Temple, for the reasons stated in the Hans case. This case involved several million dollars, and also presented the question of the right of a citizen to sue his own state.

Accommodations for Both Races.

ACCOMMODATIONS FOR BOTH RACES. The case of the Louisville, New Orleans and Texas Pacific Railroad company vs. the state of Mississippi was decided today. Justice Brewer read the decision. The question involved was the power of the state to compel railroad companies to proto compel railroad companies to provide within the state separate accommodations for the two races. The road was indicted for failure to do this, under the provisions of an act passed March 2, 1888; was convicted and fined and appealed. The supreme court of Mississippi held "the opinion of Justice Brewer" that the statute applied solely to commerce within the state, and that the construction of the statute of the state by its highest court must be accepted as conclusive here.

"The statute in this case, as settled by the supreme court of Mississippi, affects only such commerce within the state; and comes, therefore, within the principles thus laid down. We see no error in the ruiling of the supreme court of the state of Mississippi, and its judgment is therefore affirmed."

RIOTS IN GERMANY.

The Socialists Dissatisfied With the Result of Second Elections.

BERLIN March 3.-Returns have been received from all districts in which second ballots for members of the reichstag were held, with the exception of twenty-six. These re-turns, together with those from the districts in which the elections occurred, on first ballots show the election of 106 members of the center party, seventy-four German liberals and democrats, sixty-two conservatives, thirty-nine ocrats, sixty-two conservatives, thirty-nine national liberals, sixteen imperialists and thirty-five socialists. When the result of the second ballot was announced at Dartmund the socialists engaged in a riot. When the police attempted to disperse them they were stoned. The police then charged the rioters with drawn swords and scattered the crowd. Thirty of the rioters were arrested. Precisely similar scenes were enacted at Duisburg.

It is reported that the emperor, in his speech at the Staairath dinner on Saturday, referring to the successes of the socialists, said: "I don't fear them. But as regards the socialist democracy it is my affair. I am ready to deal with it alone."

#### TORPID ALLIGATORS

YIELD UP THE SECRET OF WINTER EXISTENCE.

The Negroes of Dougherty County Trying to Force the Planters Into Renting

Out Their Lands.

ALBANY, Ga., March 3 .- [Special.]-The Mitchell county, was walking around his mill pond, which is situated at the forks of two creeks. In his peregeriations he came across a cave. Leading from it through the earth was apparently large burrow. He obtained a pole and began investigating. The cave and currow extended somo twenty feet. He dug into it, and between five or six feet beneath the surface he came to seven alligators. They were large, old rusty fellows, ranging from four to ten feet in length.

MAKING A TEST.

They were sound asleep, enjoying their winter nap in accordance with the queer habit of these hibernating saurians. They were promptly despatched. There is an old belief, that when the alligators find the winter approaching they gobble down a number of pine knots to fill up their aching voids, and then take their lengthly siesta. Mr. Bowles thought this would be a good opportunity to test this belief, and accordingly one of the reptiles was cut open. Within it was several fat lightwood knots, and now Mr Bowles is ready to testify to the truth of this theory as to the capacity of the alligator for digesting the knots of the pine while slumber ing through the winter months.

COLORED LABOR SCARCE. The planters complain of the difficulty of hiring and controlling colored laborers. They attribute this trouble to the number of organfrations among them, in which they are advised by their leaders not to hire to the white or to work on shares, only to land and mules from them, start out on their They are also cautioned against planting too large a proportion of cotton, but to raise enough corn to supply themselves for next year, and thus become independent of those who make advances. These instructions they are following most literally. The result will be quantities of small farms scattered where the great plantations formerly existed and controlled by negroes.

CREDIT TOO EASY. The great drawback to the prosperity of the obtain credit, and the large profits they pay for such advances. Immense quantities of buggies, carts, wagons and food supplies are being sold them. Many of them are in debt and are carried over from year to year. The result being that they are in a species of financial slavery to their creditors, who hold mortgages upon all they have and even upon their prospective crops, and thus have them completely in their control. Their general extravagance and unnecessary wants which they gratify without thinking of the morrow, weep them in this bondage of debt. A Moses will have to rise up from among their organization to teach them economy and lead them from this financial slavery.

NO EGGS IN ALBANY. Not an egg in town! This is the condition of affairs at present in Albany. The competithis necessity down to twelve cents per dozen, and whether the hens became disgusted at the idea of their eggs only commanding a penny apiece and refused to produce any more, or whether their owners found a more remunerative market elsewhere, is not known. But at sent not an egg is to be obtained in Albany for love or money.

The great tabernacle tent for the Georgia Chantanqua will be put up this week. The courthouse plaza will present a busy scene with the carpenters at work upon the flooring, benches and rostrum, and the girls and boys stitching up the mass of canvas. Crowds will attend this session of the Georgia Chautauqua. From along all the railroads leading to Albany comes the cry, "We are " This place will be taxed to its utmost to accommodate the large number of visitors that will be present, but provision will

be made for all who come. The largest crowds will most likely attend mpon governor's and alliance days. The chance to see and hear dear, heroic Governor Gordon, whose name is already emblazoned upon history's page, will bring an immense crowd here. The military escort will also be a novelty and a great attraction here. The alliancemen will rally to hear their favorite speaker, and alliance day. will bring an audience from many miles

MAYOR WOOLFOLK'S MATINERS. Mayor Woolfolk has been having some real amusing matinees recently. Little boys with Alabama slings were arrested by the police in troups and brought before him to receive his fatherly advice, and dismissed under promises to sin no more. Both were so positive as to the ownership of the said drake that he could but advise that they turn the said drake over to him for safe keeping.

Found Dead in the Street.

ELBERTON, Ga., March 3.—[Special.]—
Sunday morning while the ground was
covered with snow, Dow Alexander, a negro covered with snow, Dow Alexander, a negro man about twenty-four year old, was found lying dead on one of the most public streets in Elberton. While breath had left the body, it was still warm, and the man had evidently been dead but a short time. Coroner Camppell soon had a jury empaneled. The jury after viewing the body directed that a post mortem examination be made, and Dr. B. F. Smith was called on. After a therough examination, the jury returned a verdict of death by strangulation, caused by a rapture of an abcess in the stomach.

Stock Raising in Bartow. Stock Raising in Bartow.

ADAIRSVILLE, Ga.. March 3.—[Special.]—
Mr. E. H. Penn is gaining a reputation for a raiser of fine stock. His stock farm here shows what pure breeding will accomplish and what money can be made from this industry in our grass and clover growing country. He has just filled an order for a couple of Jersey pigs (males) for Governor John B. Gordon. We consider this a high recommendation for our stock. Mr. Penn is not the only breeder of fine stock and ponitry here. We only mention him because he left far-famed Kontucky to raise in north Georgia. It is a success.

A DRUNKEN DEPUTY MARSHAL Is Brought to Time by the Action of Judge

Macon, Ga., March 3.—[Special.]—His honor, Judge Speer, received this morning from W. E. Houp, a justice of the peace at Jackson, a communication with affidavits attached, regarding Jack Lofton, a deputy United States marshal of Butts county. He got drunk and assaulted a citizen of that county in a barroom, near Jackson. The man rode up to the bar, whereupon Lotton assaulted him with a pistol. The communication states that the officers feared to arrest him, as he was a government official, and hence ask the court for an order for his arrest. Judge Speer, after reading the facts, immediately issued an order, calling upon the officers to show cause why he should not be removed for contempt.

PREPARING FOR SPRING MEETINGS A Conference Held One Hundred Years Ago.

Washingtor, Ga., March 3.—[Special.]— The people of Washington are making preparations for religious meetings to be held there. The Baptist convention comes in the spring, the Methodist conference in the fall.

The Methodists are making energetic preparations to reconstruct their church building which was erected in 1881. They have never been satisfied with it, and have even talked of building another; but finally determined to alter, and have raised a large subscription for it. Conference met in Wilkes county one it. Who Threaten to Deprive Athens of the Enjoyment of Beef.

Athens, Ga., March 3.—[Special.]—The butcher boycott will, in all probability continue. The council met in regular session this afternoon, attended to regular routine work, and passed several ordinances, but none for the relief of the butchers appeared among the transactions. The meat men say they are determined to hold up their end of the fight, and will take no more orders. The city stands on the same ground it has occupied for a long time. Meanwhile, ham, eggs, yellow legged chickens, fat geese, and the famous turkey, are all disappearing from the face of the earth in this section. The people of Athens are determined to have plenty to eat. Athens will now enjoy a beef famine for a while.

#### JOHN R. MIZELL,

THE MAN WHO IS SLANDERING HIS OWN STATE.

dian Who Is Making Himself Notorious Abroad by Fighting His Own People.

QUITMAN, Ga., March 3 .- [Special.]-Mr. J. A. Hunter, of this place, formerly of Florida, knows much of the antecedents of John R. Mizel, and in answer to inquiries says

"Hearing the question propounded, "who is John R. Mizel," I feel inclined to answer the question. It was my privilege to live for six years in Orange county, Florida, where John R. Mizel has lived for the last forty years, and I knew him well, both personally and by reputation. He is one of a numerous clan of that name who in the days of reconstruction spread terror, riot and bloodshed over south Florida. His one of a class that almost completely exterminated another large family or clan (Barber by name), in a feud caused by the death of a Mizel, presumably at the hands of a Barber.

A PARTY TO A BLOODY FEUD.

The Barbers were people of good standing, and one of them had been accused of stealing cattle by a Mizel. One of the Mizels being sheriff of Orange county, proceeded to serve a warrant, and was killed in the atttempt. The Mizels swore vengeance, and proceeded to that end with the result as above stated. In all this the present United States marshall took a prominent part.

All this I got from the lips of old settlers, but I have seen some of his later exploits. I saw him at the last general election mysteriously disappear after exciting the negroes to a riot, which, but for the cool heads of a few leading democrats, would have afforded much food for southern outrages of northern birth. The Mizels still lead their party in Orange county—in fact, in south Florida—and 'tis no

unusual sight to see a trio of that class armed to the teeth and full of bad whisky, taking in the country generally.

A DSLPERATE CROWD. I will be brief for fear some of the Mizels may come after my scalp, for they are gen-erally feared in Orange county, and have a well earned reputation as desperadoes. His first effort at packing jury boxes is but the fore-runner of what the people of Florida may expect at his hands.

This land had been given to the Ladies' Park association for park purposes, but had never been improved to any considerable extent. The council passed resolutions reclaiming this land, and directing that it be restored to the control of the commons commissioners. The question of the ratification of this action on the part of the council was submitted to a vote of the people, and the election was held today. It resulted as follows: For ratification, 338; against ratification, 11. This means that the commissioners will now sell the land that the commissioners will now sell the land to the Central, and Columbus will get the

TALKING FOR SEWANEE. An Interesting Meeting at St. Luke's Yes-

A lecture on Sewanee, the university of the south, was delivered last evening in the guild parlors of St. Luke's cathedral by Professor W. H. McKellar, one of the collegiate in-structors. An intelligent and appreciative audience was present, and followed the lecture As might have been expected, the lecturer

spoke in favor of his alma mater, though the reasons for so doing appeared quite cogent. Sewanee is on a mountain top, and the climate is invigorating and favorable to physical development. Good education in the Sewanee sense is mental, moral and physical. In the grammar school depart-ment boys are taken from the age of twelve upwards, in the college proper from sixteen. The young men live in licensed boarding halls, in which the family organization is followed under the supervision of the

boarding halls, in which the faunity organization is followed under the supervision of the authorities.

Sewanee is a thoroughly democratic institution in this respect that there is no "class" organization; all students are either gownsmen, (who wear the "Oxford cap and gown") or juniors. In fact, the university is after the Oxford model, and the only feature that is peculiarly American, is a very fine cadet corps of three companies, which is supervised by a United States army officer. Otherwise it is not a military college, by any means, but one in which the best results are to be obtained by young American gentlemen. There are seventeen departments of study taught by a faculty of twenty-four professors and instructors.

The vacations are in the winter at Sewance, as that season is rather-severe on that elevated plateau. This arrangement gives friends of the students the opportunity of visiting them in the summer when they are at work, while the university is in full swing. It also enables the faculty to secure such special lecturers (when other colleges are in vacation) as Charles Dudley Warner, Thomas Nelson Page, Dr. Gildersleeve, the eminent Greek scholar of Johns Hopkins; and Dr. Thomas R. Price, of Columbia. Professor McKellar stated that the college had won four out of seven medals for state (Tennessee) oratorical contests. It has a good baseball team, which so far has only been defeated four times, and generally "gets away" with its opponents.

It was easy to gather from the pleasant young speaker's lecture that the people of the south had no need to blush for their university, but that it is proving itself in all respects an institution of learning, deserving of the confidence and support, moral and financial, of "the people of the flourishing metropolis of Georgia."

#### A MOCK SUPREME COURT

AN UNUSUAL SCENE ENACTED IN ATLANTA LAST NIGHT.

Friendship Church Witnesses a Rare Seand in a Contest Between Young Lawyers From Rival Atlanta Colleges.

A mock supreme court. Six judges and a chief justice, sitting in udgment in the cases of two culprits accused being members of the kuklux klan. And the case in point was East Point!

But the benches are left free and open.

And every one of them was occupied, while a lot of people struggled for standing room. The judges were Nick Holmes, Will Andrews, H. Hamilton, Professor Keene, Rev. Joe Flipper, C. O. Fisher, with A. B. Walker as chief justice.

Sergeant-at-Arms John Dennis, who is Kimball house porter, appeared with a red sash around his waist and a pistol stuck in the right hand corner, as a badge of authority.

Another student named Parker, from the Baptist Seminary, appeared next, and he tore the very socks off the accusers of the alleged knklux. His speech was full of bombas eloquence, and was read rather than rettered But it was full of pertinent points, and was well studied and delivered. At its close there was a slight commotion, and the announcement was made that a wedding was imminent. The sea of dusky faces, with a prinkling of white that appeared like flecks of foam on the stormy billows, was turned to

Rev. Edwin Carter, pastor of the church, descended to the center of the aisle, and the procession moved up the aisle. Under the garish light they advanced, and the marriage was duly solemnized according to the rites of the church and the laws of the state.

After the wedding the argument was re sumed, a student of Atlanta university, named Lloyd, using the powers of his eloquence in the prosecution of the prisoners.

Then came the most logical and law-like speech of the evening by a Baptist seminary student named Dodd, who delivered a splendid address, which was only marred by the un-necessary and indefinite wildcat peroration,

necessary and indefinite wildcat percration, the judges themselves questioning its pertinency to the case in hand.

Student Hunt had the closing argument, and he did well. His speech was interpolated by frequent references to the code of the state, and interrupted by numerous queries from the bench. But it was an able effort, and impressed those who listened to it with the idea that the student had learned his lessons well. It was a curious scene. A number of men It was a curious scene. A number of men were assuming to take upon themselves the majesty and dignity of the supreme court of the United States. Invested with unlimited power, for the hour, they seemed to feel the

wore a pair of steel rimmed spectacles and an interested expression.

After the speaking was over Chief Justice Walker arose and, departing from the dull routine of custom, he went on to make a

speech.

In the wind-up he said that he had been called upon by the judges to deliver the opinion of the court, and he announced that, if the prisoner was still in jail, they ordered his release, as they had reversed the judgment of release, as they had reversed the judgment of the court below. As a sort of addenda he said that there was an ice cream festival going on below, and the Odd Fellows were conducting an entertainment uptown—admission fifteen

The Irishmen of Atlanta will appropriately observe the day by meeting tonight in the hall over Lowry's bank.

THE MINISTERS MEET.

The Evangelical Ministers' association met at 10:30 a. m. yesterday in the pastor satudy of the First Methodist Episcopal church. The meeting was opened with prayer by Rev. A. W. Quillian. Rev. Dr. G. B. Stricker pre-

About twenty ministers were present. The ommittee appointed to bring in resolutions touching the death of Willie Barnett, the son of Rev. E. H. Barnett, D.D., reported the fellowing, which were read:

Just four weeks ago we were made sad by the announcement that at the very hour in which the association met, our dear brother, Rev. E. H. Bar-

a promising young son.

As an expression of regard and sympathy with
him in the sad bereavment, the meeting was adjourned, and several of the ministers repaired to
the house of mourning.

The grief which our brother feels tenderly affects our hearts and moves us to give assurance of
fellowship with him in his sufferings.

ones, we would walk with them as far as we may, and hold up before them the sweet promises of the gospel.

The words of loving friends, however well meant, are poor offerings to the sorrowing, while the words of Jesus, rich with grace and peace, enter their homes and hearts and dwell there in unspeakable comfort. "Lo, I am with you always." "My peace I give unto you." "Let not your heart be troubled," when spoken by the Savior, penetrate the "vale of tears" and fall like benedictions upon the chastened soul. Nevertheless, in deep sincerity we tender our brother, Rev. Dr. E. H. Barnett and family heartfelt sympathy in this season of their sorrow, and pray that our loving Savior may draw nigh to them in full assurance of faith and hope. Respectfully submitted,

AT THE THEATER.

Bonnie Kate Castleton swooped down upon At lanta last night, and "just in the old sweet way" captured everybody in the large audience which

greeted her.
When Lotta, Pixley, Patti Rosa and other southern favorites visit us we accord to each the first place in our hearts; and so it is with Kate Csstleton, though her visits are less frequent. "Bonnie" Kate she is, attractive in all the elements that go to make up a popular soubrette. She is witchingly pretty, has a sweet, sympathetic voice which she knows how to use, dances gracefully, and has, beyond it all, the magnetism which "catches." Her singing is her special forte, and after each song she was made to respond to encore after encore. Among the favorites were "The Spider and the New York Cord May Who Didd", the significant of the Spider and the Fly," "The Good Man Who Died," "Just in the

B. Bridgeland are excruciatingly funny in their different roles. Mr. Clarke is clever, but he hasn't as much of a chance as the others. Miss Lizzie Conway doubles the parts of a giddy old maide and an Irish servant, and is exceedingly clever in both. Miss Martford and Miss Ottilie are both

THE PIEDMONT CLUB.

AN IMPORTANT MEETING HELD LAST NIGHT.

the Treasurer's Report Read—A Sur-plus of Over \$700 on Hand.

The annual meeting of the Piedmont club was held last evening in the office of Mr. Humphreys Castleman on Alabama street.

Owing to the absence from the city of President Ridley, Vice-President Castleman presided, and when he called the meeting to order the following cartilland. the following gentlemen were present:

Major W. H. Smythe, secretary; Vice-Presi-

dent Humphreys Castleman, and Messrs. Jack Spalding, Ragan, Gramling, Beck, Walker, Amorous, Wilson, Scott, Thompson, Van Winkle, Doctors Wilson and Avery, and Captain J. R. Wylie. These gentlemen, with the proxies they represented, constituted a quorum and under the bylaws it was possible to transact business.

After Secretary Smythe had finished read-

ing the minutes of the last meeting, Mr. Spalding rose and moved that a committee mposed of Captain James R. Wylie and Messrs. Amorous, Gramling and Wilkins should be appointed to suggest names for the officers and board of directors for the ensuing

The committee was duly appointed, and when they returned from the outer office, where a consultation was held, Captain Wylie explained their long absence by saying that so many members would make excellent officers that the committee hesitathed before making a final decision.

The names of the following gentlemen were then submitted to the members of the club

and were unanimously elected:
President—R. B. Ridley.
Vice-president—Humphreys Castleman.
Directors: Joseph Thompson, Jack Spalding, John A. Fitten, John W. Grant, John

Mr. Spalding made some remarks on the Mr. Spalding made some remarks on the advisability of his retiring from the board of directors, and suggested the appointment of another gentleman in his place. The club promptly and decidedly declined to consider the matter, and insisted on his continuing on the board of directors.

A motion was introduced by Captain Wylie authorizing the board of directors to change the by-laws so as to increase the efficers of the club by the appointment of second and third nice-president. It was also decided that the board of directors should elect the secretary and treasurer.

board of directors and treasurer.

The next order of business was the reading report. Major Smyth

The next order of business was the reading of the treasurer's report. Major Smyth showed that the dues for 1889 amounted to \$1,710, and for 1890, up to date \$810, making the receipts since the last meeting \$2,520. He also gave an itemized list of expenditures and reported the balance on hand as being \$704 41. The report was received and ordered spread on the minutes of the club.

A discussion arose among the members as to the necessity of carrying water to the club house, and the president and secretary were authorized to submit to the city officials a proper request that the city water be taken to the head of Nelson avenue, and from that point the club will lay a four inch pipe to their building.

After some talk of the improvements which will be made in the approaches to the club house, and in the lawns and flower beds, the meeting adjourned.

Coffee—A Novel Way of Introducing Goods.

The names of all persons finding diamonds, watches, etc., are added to the list daily. The Overland Tea company, of San Francisco, Calchave refitted the store, No. 43 Peachtree street, and in order to introduce their goods, this company will put for sixty days souvenirs in every can of tea and coffee sold, such as solid gold, silver and nickel watches, also genuine diamonds in solid gold setting; also money and many other articles of less value. Every can contains a souvenir. The coffee, can and contents weigh about three pounds; tea, can and contents weigh about three pounds; tea, can and contents about one and one-half pounds. This expensive and novel way of advertising will be discontinued after sixty days, and these really choice goods will be sold strictly on their merits, out without the souvenir. Of course every purchaser must not expect to get a diamond or watch. This company claim that they have just as good a right to give away watches, diamonds or other jewelry and money as their competitors have to give away glassware, chromos, etc. Get up a club. Withdrawn.

The suit brought by the Tennessee Coal, Iron and Railroad company against John H. Inman as director, member of the executive committee and fiscal agent, to recover \$2,500,000 which, it was alleged, he, together with Nathaniel Baxter, Jr., and A. M. Shook, wrongfully appropriated, was discontinued yesterday by mutual agreement. The agreement was signed early in the morning, and at 11 o'clock the notice of discontinuance was filed in the clerk's office of the United States circuit court, where the action was brought. This is the

court, where the action was brought. This is the agreement:

"Since the commencement of this action, the complainants having made a more thorough investigation of the transaction involved, and having satisfied themselves that information which was assumed and relied upon by them was inaccurate, and that there is no liability by reason of the matters stated in the complain on the part of the defendant and his associates, and it thereupon having been agreed between the parties that the complainants' bill should be dismissed without costs to either party as against the other, upon the conditions hereinafter named.

"It is hereby agreed between the complainants and the defendant that, without costs to either party as against the other, the bill of complain be dismissed, that an order to that effect be entered, and that this is in full withdrawal of any claim on the part of the complainants by reason of the matters in the bill of complaint alleged, the understanding being that no further suit shall be brought, but that the arrangement herein made terminates and settles all questions, and is final." This was signed by John H. Inman and his connsel, John E. Parsons, and for the plaintiff appear the signatures of William M. Duncan, vice-president of the Tenuessee Coal, Iron and Railroad company; J. Bowran, secretary and treasurer, and Judge H. C. Bond and Sparrell Hilliof the committee appointed to prosecute the suit. The company's counsel, Tracy, McFarland, Ivins, Boardman & Platt, also sign the agreement. The name of Thomas E. Platt does not appear on the document.

Mr. Inman said last night that it had been the

Mr. Inman said last night that it had been the Air. Inman said last right that it had been the intention of all parties to keep the discontinuance of the suit quiet for a few days yet, and so he was not prepared to say anything about it. He said emphatically, though, that there was nothing in the nature of a compromise in the discontinuance. He said he had done nothing and had not promised to do anything or pay anything in consideration of the discontinuance of the suit. The reasons, he asserted, were faithfully set fourth in the agreement.

agreement, were intimitily set tourth in the agreement.

"Mi. Platt," said he, "was not informed of the facts when he brought that suit. He has been informed of the real inwardness of the affair since, and ft once he came forward in a frank and manly way, admitted that he was in the wrong, and offered to withdraw the suit."

Mr. Inman said that the recent gymnastic performances of the stock of the company on 'change had nothing to do with the discontinuance. He bought the stock largely at low. tide last week. This, he said, was because he believed in it. The fact had no bearing upon yesterday's action.

The County Commissioners' Election. Messrs. James D. Collins and Anthony Murphy were elected vesterday by the grand jury as county commissioners, to succeed Messrs. George W. Adair and M. C. Kiser.

Both Messrs. Collins and Murphy have been members of the board, and their past records, as members, insures an honest and faithful performance of the duties to which they were assigned yesterday. Both Messrs. Collins and Murphy, are well posted on county matters, and will resume their work sing a thorough acquaintance with the responsibilities of their positions.

Messrs. Kiser and Adair have made faithful public servants. They have labored parnestly and conscientiously for the best interests of the county, and leave records, as members of the board, of which they should

#### "Lively Journalism."

Under this heading, Max O'Rell discusses American newspapers in the March number of the North American Review.

It is sometimes pleasant, and at all times Interesting, to see ourselves as others see us. and this brilliant Frenchman does his best to Increase our feeling of self-satisfaction. Max O'Rell says that our newspapers are the best in the world, because they are filled with the news of the day instead of devoting a large share of their space to the opinions of the editors. Centuries of class domination in Europe have made the people willing to take their opinions from those who control the press, but in this country the intelligent and independent citizen demands the facts-the news-and forms his own opinions. This does not weaken the American editorial page. On the contrary, it makes it better. Our editorials instead of being confined to the expression of personal views, are a mixture of fact and comment, and hence convey information of real value.

The latitude allowed our special corres pondents and reporters enables them to make public matters of interest which in the old world are the secrets of the privileged few. But what strikes our Frenchman most is the readable quality of our newspapers. With us it is not sufficient to state a fact or an opinion in good English. The headlines must be suggestive. Short sentences and paragraphs graphically written must lure the reader on to the body of an article. A good news item must take the shape of a story, and when there is room for it there must be a play of fancy-something picturesque and epigrammatic.

Perhaps we are superficial and sensational. If so we reflect the age in which we live. Just what a people are, their newspapers will be. But Max O'Rell says that he does not care to make such points against us so long as American newspapers spend thousands of dollars to secure an accurate account of an Incident in Europe, and thousands more to send a Stanley into the heart of Africa.

After all, the chief mission of a newspaper is to get the news and print it iu an interesting shape. Taking this view of it, Amern deserves all the good said about it.

#### A Sweeping Dog Law.

It has been proposed time and again in this state to have a general dog law, but the measure always falls through, as our statesmen feel very ticklish when it comes to a

New York, however, has boldly tackled the evil, and hereafter taxes will be imposed upon dogs over four months old.

This sweeping law provides that every person or family owning or harboring a female dog shall pay a tax of three dollars. and a tax of five dollars for each additional female dog. Other dogs are taxed from one to two dollars.

The law requires a registration of dogs by the clerks of cities, villages and towns, for which fees will be charged. The registered dogs will wear stamped collars, and will be safe for one year.

Already a protest is coming up from the rural districts of New York. The country people appear to be against the dog tax, and it is likely that the matter will be made a big issue in the next election. The result will be watched with interest all over the country. Just at present the dogs are getting the worst of it, but they may yet come out on top.

Good Public Roads. As we have stated on more than one occasion, Georgia is not the only state in the nnion that is afflicted with bad roads. In Pennsylvania, the highways, as a general thing, are no better than the average thoroughfares in Georgia. In New York

the roads are in a like condition, and the

same may be said of the roads in the rural districts of New England. The disturbing fact, however, is that Pennsylvania, New York, and other states, are giving themselves over to reform in this matter. Georgia had a little spasm of this sort nearly a year ago, and the official pro-ceedings of the road congress of Georgia, and the speeches of those who took part in those proceedings make very interesting

that something important is likely to grow out of them in the future. Meantime, however, the interest in the matter that was then developed appears to be on the wane. Perhaps this is due to the fact that the legislature failed to come up to the expectations of those who perceive the need of reform. Another legislature, if the proper pressure is brought to bear by the people and the newspapers, may be de-pended on to carry out the suggestions of the road congress, and thus give counties

reading. They are so interesting, in fact,

and communities the power to improve their A bill now before the New York legislahighway commissioners, whose duty it shall be to attend to the construction and maintenance of an improved system of public roads outside of the cities, building them up and perfecting them on the road-beds of such existing highways as may be selected by the respective boards of county super-

In Pennsylvania a special tax for road purposes has been levied, and a working lan for its expenditure has been provided. In Maryland, there is a movement for better roads, and also in Massachusetts, and it is a movement that is bound to spread.

The Manufacturers' Record is of the opinion that as the public highways belong to all the people, to be used in common, their improvement is a duty that ought to fall on the state itself. The cities and towns may be depended on to look out for themselves but the improvement of the country highways ought to be a part of the state's

#### Atlanta's New Recorder.

The election of Mr. Ernest C. Kontz by the city council yesterday afternoon elevates a most worthy young man to this responsible position.

Mr. Kontz is only twenty-four years old, but a more energetic, pains-taking, conscientious young lawyer does not practice before on the board with the advantage of posses- | the Atlanta bar. He is a recent graduate of the university of Georgia, where he took both the degrees of literature and law.

Mr. Kontz will make an able recorder, and the council will find that its work will be indorsed by an able administration of the office to which he has been elected.

#### A Coming Man in England.

Editor Labourchere, of the London Truth, has been suspended as a member of the house of commons for one week.

Mr. Labouchere is the brightest and most fearless journalist in England. The offense which led to his suspension will be readily forgiven by the people, as it was she natural utcome of the zeal of their champion in their service. Mr. Labouchere made it plain in a very bold speech that the government had aided the escape of certain noble lords who were mixed up in the recent London chab scandal. The premier's denial of the charge was branded as a falsehood. The journalist made such a clear exposure of the guilt of the aristocratic criminals that the tories determined to make an example of

But Mr. Labouchere is a coming man, and his suspension will have the effect of making him more popular than ever. The Euglish people dearly love a martyr. When John Wilkes was elected from Middlesex and was denied a seat in the commons, the voters raised a clamor and continued to re-elect him until the administration was compelled to yield. Only a few years ago the house refused to seat Mr. Charles Bradlaugh, the infidel. The result was that the people re-elected him, and he not only took his seat, but conducted himself with so much dignity and courtesy that he disarmed his opponents and is now a recognized force in parliament.

The arrest of Wilkes and the forcible ejection of Bradlaugh made them popular heroes, and the policy pursued toward Mr. Labouchere will have the same effect. The editor of Truth is a man of conspicuous ability, and he would have been at the front years ago if it had not been for his volatile disposition. Men distrused him because he had a light way of dealing with serious matters. cently, however, the responsibilities laid upon him by his constituents have steadied him, and he is an earnest advocate of democratic ideas. Next to Gladstone no man commands more hearty applause when he ap-

pears in public. Under the circumstances it is fortunate for the people's favorite that he has drawn upon himself a public manifestation of the government's displeasure. It will make him the able that he will get even with Lord Salisbury by taking an active part in retiring that gentleman from the premiership.

#### Georgia in Pennsylvania

We are informed by the Philadelphia Inquirer that the name of Howellville, Delaware county, Penn., has been changed to Gradyville.

All the facts of the case are are not before us, but we take it for granted that the inhabitants of Delaware county are determined to stick to Georgia, and give some old fashioned Georgia names to their postoffices.

Such an exhibition of fraternal feeling is very pleasant to behold, and when the map of Pennsylvania becomes thickly dotted with the names of well known Georgians it goes without saying that the key stone state will have a very home-like look to our people-at least on paper. Let the good work go onour friends are at liberty to borrow any name

Several months ago, Mr. Wallace Putnam Reed, of our editorial staff, was engaged in writing a series of short stories for THE CON-STITUTION. These stories were very popular. They were copied far and wide, and found their way into the patent insides and out sides, where they are still doing service in a casual way, to fill out the literary columns of the esteemed hebdomodals of the land.

On one occasion Mr. Reed had in his mind a story in which an alibi was to play an important part. Rapid transit was nece make the alibi stick, and he bethought him. so to speak, of George Stephenson's experimental locomotive. which was originally intended to run on turnpikes. Turning to the cyclopedia, Mr. Reed found that Killingworth colliery, one of the most important mines in England, was near the place where George

Stephenson was making his experiments. This was his cue, and he wrote the story which was printed in these columns unde the title of "John Dale's Alibi." The plot was simple, and yet quite out of the ordinary. John Dale was in the employ of Stephenson. and had frequently. in his wild, drunken moments, taken his master's locomotive out on the road while the inventor was asleep

On one occasion Dale spends all his wage at the Killingworth tavern, and is ordered out by the host when his money is gone. He meets a peddler, murders him and gets his money, and then to conceal his crime, takes Stephenson's locomotive, and goes to a village fifty miles away. He is back home before dark, and this is his alibi.

All this, as a matter of course, is pure fiction, and intended as such, but now the Philadelphia Times reprints the story as a bit of interesting history and credits it to the

A CORRESPONDENT writes from New York: It is an unmistakable fact that southern literary women are becoming more and more a factor in New York circles, and it must be confessed that too often lacking in our northern women the New Yorker is beginning to find out, and it is not an uncommon sight to see a group of two or three southern women the center of attraction at some literary or social gathering. Only a few evenings ago a corner of a room at a known New York literary woman's acted as a magnet to the guests, especially the male portion. #### SMITH FOR CONGRESS.

GALLANT SOLDIER WHO WOULD HONOR HIS CONSTITUENTS.

The Triumph of a Life Over the Har of Youth-In the Public Service of Two States-A Ripened Manhood.

BUFORD, Ga., March 3 .- [Special.]-This is the home of Hon. W. T. Smith, now prominently mentioned for the democratic nomination in the ninth district. Mr. Smith is preeminently a self-made man, and through great obstacles he has struggled from boyhood up to his present position.

HIS EARLY LIFE. A native of Butts county, he grew up on a farm without school advantages until he was fourteen years old. Then he became a pupil of Dr. Reeder, a school teacher who repre-sented Gwinnett county in the legislature. There he worked morning and evening on the farm, and in the interval secured his

IN THE WAR. In less than a year the war began, and young Smith went to the war in Dr. Reeder's company, in which he was elected a lieutenant—one of the youngest in the service. He was sent home an invalid, but subsequently joined the Forty-second Georgia regiment, where he was associated with Colonel L. P. Thomas, Judge Calhoun, Lieutenant H. Y.

erate officers now living in Atlanta.

After the war, Mr. Smith went to Texas, without money enough to buy land or even provisions. He went to splitting rails for a living, and by hard work and economy became owner of a fine farm.

CALLED INTO THE PUBLIC SERVICE. While at work on the farm he received the news of his nomination by the democrats represent Titus county in the legislature. He served for three terms, and during one hotly contested campaign the rallying cry of his friends was "Smith, the great rail-splitter from Georgia."

Mr. Smith was selected by Governor Thockmorton's friends to nominate him for United States senator, and in doing so the rail-splitter

made a brilliant off-hand speech.

HIS CANDIDACY FOR THE NINTH. I recently asked him if he was a candidate for congress. He said: "Not a candidate in the sense generally understood; I shall make no effort to secure the nomination, I shall press no claims of mine nor ignore or disparage the claims of others. What the democratic party of the ninth district needa is to 'close up ranks and present to the enemy a solid front.' No act of mine shall ever be construed to divide or estrange my party, I am for any man the democrats put in nomination. If possibly that nomination should fall to me, I will gratefully accept the honor done me, and make any effort and sacrifice to carry the democratic banne triumphantly to victory."

Captain Smith is naturally a friend to the toiling masses, a true and steadfast friend and advocate of the farmer element, and neglects

no opportunity to champion their cause. He is a true and tried friend of the confederate soldiers; a friend to the common schools. He is a generous, big-hearted, liberal-minded man, and a true democrat. He is able, logical and convincing in debate, and a fervent, eloquent and brilliant stump speaker, and has never been defeated before the people for any office for which he ever ran. He has never yet been sidetracked.

#### A BROTHER SOLDIER. SOME PEOPLE YOU MEET.

Mr. E. S. O'Brien, the successful and wealthy merchant at Barnett, was discussing the visit of the Ohio farmers to Georgia and the possible results of their investigation of Georgia's resources.

"Those men came, as I understand it, fro the richest country in the west," he said, "and they may think some of our land does not compare favorably with theirs. But there is a great deal which they must take into consideration. They must be made to understand first that while this soil of our's doesn't look as rich as their black loam, and probably isn't as rich. A great deal can be accomplished with it under our intensive system of farming. They talk of raising their fifty to seventy-five bushels of corn to the acre, but what do they get for it? Five or six dollars, not much more. We raise ten bushels to the acre, but the farmer here gets about as much money for his ten bushels as the western man does for his fifty. Where Georgia has the dvantage of Ohio and other parts of the west is in her climate. I don't think we realize what a magnificent climate we do have. There is scarcely a day in the whole year when a Georgia farmer cannot be at work. The Ohio oan who for four or five months can do prac tically nothing; the Dakotan or Minne who loses half his year or more; the New Englander who has these disadvantages and many others-those farmers will realize what blessing this climate of our's is. It does goo to bring them here, for some of them will come to make their homes among us, or will send their sons. If our farmers bad the energy and progressiveness of those northwestern men they'd get out of debt in

a year " MA Walter Emerson, the world-renowned cornet player; Medora Henson-Emerson, th ished prima donna; Herr Rudolf King, the eminent pianist; and Mr. John Thomas, the humorist and elocutionist, who constitute the "Boston Stars," spent part of Sunday and yesterday at the Kimball house. They give a performance tonight at LaGrange. Unfortunately they could not procure an open late with Mr. DeGive, so they will not be heard in Atlanta this season. This is regretted by all lovers of good music in Atlanta, who would give the Stars a cordial greeting should they appear here. This sterling musical oron is stronger now than ever before, and is having a phenomenally successful tour through the south. Said Mr. Emerson to tative of THE CONSTITUTION: present southern tour is the most successful one we have ever had. It every town we play to crowded house and our audiences always expres their delight in the most enthusiastic way We have found many cultured and discrimi nating music lovers in the south, and have verywhere been accorded generous treatment. There is an unmistakable improvement in the musical taste of the southern people, and no where in the union can be found more refined nd ardent music lovers. We are delighted with our audiences, and we have good reas to know they are pleased with us. The truth is our company is second to none in this counand our reputation is sufficient to en us full houses wherever we go. I am sorry we cannot secure a date in Atlanta. You certainly have a wonderful city here. Everytime I visit Atlanta I am more and more impress with its marvelous thrift and attractivenes

A New York drummer, who hasn't been through Georgia in five years, says:
"I never saw anything like the strides this part of the south is making. I see this better than you all who have been here all the time, and I tell you Georgians have a right to brag. This growth is especially noticeable by the large number of new railroad lines you are building, Why Georgia is becoming a perfect network of

-The late revival at the Stone church in Chattanooga, has caused Dr. Dumbell, rector of St. Paul's church, some discomfiture, and yesterday he preached a strong sermon denouncing this method of Methodism. The Times makes the following extract from his sermon showing that Dr. Du bell can use pretty strong language when he wants

He said that in these days religion is rampant; we heard how men had gotten religion, and under the spell of a revivalist's eloquence the sinner who presumed that he was at the lowest depths of hades, was transmuted into the very seventh heaven of eestatic bliss. These remarkable assertions were astounding, to say the least of it, said the preacher. Men who claimed this wonderful change had no grounds to support their claim from the inspired scriptures. He went on to say that we hear of revivals, and especially in these days. He failed to recognize the influence for good in these exuberances of religion. He then warned his congregation against participating in revivals. He had learned to his sorrow, he said, that some of his people had gone to the late revival. They ought not to have gone. More especially did he lay great stress on the ladies of his congregation frequenting the revivals. If they had any trouble, or were in distress, they should have come and acquainted their pastor, and not gone outside the universal church to obtain comfort. He hoped that this spectacle would not be seen again. Keep near the church, and then the church will keep near and shelter her flock. Dr. Dumbell incidentally referred to the trafficing of religion on the street, which he thought was contrary to the true teachings of Jesus Christ. He then earnestly pleaded in eloquent words for his people to see clearly the difference of a religious life, and a life in which a man worshipped God because of his infinite love towards human suffering. He then vividly contrasted the clangelan preacher's method of draw. trasted the clap-clap preacher's method of drawing the sinners to see the better way, and the church's way of leading up to a higher, and grander life. He said that hell, flammation and fire were not words conductive to stir up the nobler impulses which lie deep in the human

nobler impulses which lie deep in the human heart. He then drew a picture of the grand ideal which the universal church put before a man to follow. He spoke of the stainless life, pure motives, and sublime his bric record of Jesus, and stated that when the story of the cross was recited it melted into tears the stubborn heart of the unbeliever.

He stated that the man who loudly boasted of his salvation failed to understand the true meanin of scriptural words. No man could positively state whether he was saved or not. To make such a statement was false, unreasonable, and unscriptural to the country of the country statement was false, unreasonable, and unscriptural. He said St. Paul never made any such claim. He was satisfied in saying that he had a reasonable hope of salvation, and not a positive one. Lightning conversions are at a discount at Dr. Dumbell's church, and revivals are absolutely

There will be a meeting of the incorporators of the Washington and Lincolnton railroad at an early day, when they will take steps to have their charter amended, so as to conform to the new scheme. In the mean time subscription lists will be opened and the arrangements for work pushed ahead as much as possible.

The Georgia Midland. The Georgia Midle

ATHENS, Ga., March 3 .- [Special.] - Athens rejoices in the prospect of an extension of the Georgia Midland. Reliable information states that the Georgia Midland will push its road through to Athens at once. If so it will be one more of the roads that are destined to make Athens a great railroad center in Georgia.

Under One Head. Did you ever think of the rounds a railroad Did you ever think of the rounds a railroad ticket makes before reaching the waste basket? Its birth is marked when it is received from the printing house at which the company has its work done. Then its form and number is registered by the ticket clerk, and taken to the supply room, where it is shelved until a requisition from some agent of the line calls for a supply by a certain route in which it is included. Poor little ticket is then taken out with others and entered on the ticket book again and sent to the agent. He receipts for it, stamps it when sold, with a book again and sent to the agent. He receipts for it, stamps it when sold, with a force that marks the date on its back wherein it begins its journey. If the passenger who buys it has baggage (as is usually the case) the ticket passes through the hands of the begagage agent, whose punch elips out the letters "B. C.," indicating that the baggage it covers has been checked. The conductor, when it is presented for fare, purpose it covers. has been checked. The conductor, when it is presented for fare, punches it and takes it up. At the end of his trip he enters it upon his report of tickets collected, and from him it goes into the ticket auditing department; the report is examined, checked over and filed. The ticket is systematically arranged with others and put away, only to stay until the agent who sold it turns in his report of ticket sales at the end of the month, when it is again resurected, arranged in the order of its form and number, and if reported correctly and at the right rate, it is tem ported correctly and at the right rate, it is tent to pieces, and finds rest in a waste-basket

Some roads, however, retain their through-ticket coupons for future reference for a year, or longer.

JUDGE FUNEST C. KONTZ

THE GENER COUNCIL ELECTS
HIM AUDIT R AND RECORDER.

Captain J. W. English and Captain W. H. Brotherton Elected Police Commission-ers-A Fine Portrait of Mr. Grady. Hen E. C. Kontz is the youngest auditor and recorder the city of Atlanta has ever had. But he will make one of the best.

His election was accomplished by the gen eral council yesterday afternoon after a long and stubborn fight of eleven ballots. An Interesting Fight. It was early in yesterday's session of the

council that the rules were suspended for the purpose of electing a recorder and two members of the police commission.

Mayor Pro Tem Hutchison resigned the chair in favor of Mayor Glenn, who presided. When the clerk was asked what business there was under this head, he answered: 'I have here two resignations, that of Judge

ERNEST C. KONTZ. Pendleton, as assistant city attorney, and that of Judge Auderson, auditor and recorder."
"Let them be read," remarked the mayor.

Judge Pendleton's letter read:
Atlanta, March 1, 1890.—Hon. John B. Goodwin, City Attorney—Dear Sir: I hereby tender, win, City Attorney—Dear Sir: I hereby tender, through you, to the mayor and general council of the city of Atlanta, my resignation of the office of assistant city attorney. I am influenced to do this solely because I deem it to my interest to accept other service which has been offered me. My relations with the mayor and general council have been altogether pleasant, and you have extended to me every kindness and courtesy that I could

Pendleton having tendered his resignation as assistant city attorney, I take this occasion to acknowledge the ability and fidelity with which he has discharged the duties of that position.

To fill the position thus made yacant I hereby appoint as assistant city attorney subject to your confirmation, Hon. James A. Anderson, present recorder. Respectfully, JOHN B. GOODWIN, City Attorney.

The clerk then presented the resignation of

Judge Anderson as auditor and recorder. It ATLANTA, Ga., March 3.-Honorable Mayor and General Council: I have the honor to tender my resignation as city recorder and auditor, to take effect from this date, and in doing so to express my earnest thanks to your honorable body, and to the people whom you so faithfully represent for the kindness and confidence which have so long-sustained me in the discharge of the difficult duties of the offices now resigned. I am, gentlemen, yours respectfully,

"What will you do with Judge Anderson's resignation growthern?" asked Mayor Glenn. General Council: I have the honor to tender my

resignation, gentlemen?" asked Mayor Glenn. It was accepted. Then the gener general council unnanimously voted for Judge Anderson, for assistant city attorney, thus confirming City Attorney

Goodwin's appointment of him.

Mr. Haas arose with a paper, reading: Whereas, the system of keeping the city's books has been changed, and the service of a city auditor is no longer necessary. Therefore be it ordained:

As Mr. Kontz received Mr. Hendrix's vote the large audience began to applaud, and as Mr. Inman gave his vote, making the requisite ten, the applause broke out anew.

Mayor Glenn then announced that Mr. Kontz was duly elected to fill the unexpired term left by Judge Anderson.

Judge Ernest Rontz.

Ernest C. Kontz is an Atlanta boy. His parents came to Atlanta in 1848. They were amongst our earliest settlers, and of that class of citizens whose industry and thrift aid so much in building up a city. Ernest, the youngest of the family, was born September 11, 1865. His first school teacher was Mrs. H. L. Harvey, now teaching in Davis street public school. He was a pupil of the Luckie street public school until the Marietta street school-was opened. After going through the old first grade of the public school, he was for two years in the wholesale store of John Silvey & Co., where he received a practical business education. While there employed, the determination to become a lawyer grew, and he resigned his position to commence a course at Neal's Kirkwood (now Edgewood) academy, where he received a practical business, education and military training. After a four years' course at the Kirkwood academy, he entered the University of Georgia, October, 1884. From the first, he was among the foremost students at the university. He was a member of the Phi Kappa literary society. In 1885 he was elected public debater of the society. In 1886 he was one of the junior class commencement speakers on his general scholarship. In 1887, he was elected by the Phi Kappa society anniversary. This is considered the highest college honor. As the subject of his address he chose the German motto, "Ich Dien," (I serve.) Dr. W. L. Jones and the late Dr. P. H. Mell, who had been present with few exceptions for twenty-five years, said that it had never been excelled by any speaker at the university. He was president of his graduating class in 1887, and was again one of the select speakers of his senior class at commencement, 1887.

During vaca

During vacations and holidays, Mr. Kontzwas a railroader, being a conductor of a Pullman palace sleeping car. The press of Georgia
will remember Mr. Kontz-as the courteous,

presented him with a very handsome scarf-pin,
in accepting which he probably made his
maiden speech. \*Being a conductor he traveled

extensively, and gained a vast amount of valuable experience.

After graduating from the university in 1887 he accepted the position of Pullman conductor regularly, and ran out of Cincinnati as head-quarters to Chicago, New Orleans, Detroit, St. Louis, etc., but he never gave up the intention of being a lawyer, and soon accepted a place in the law department of the Pullman company under Colonel Elgin Lochrane. He then entered the law department of the university of Virginia, where he acquired an extensive acquaintance, and the venerable and distinguished professor and author, John B. Minor, testifies to his success in his studies there. Coming back he again entered the law department of the university of Georgia at Athens, where, though absent for some time during the course, he was third in his class of thirty-two men.

men.

Returning, he was at once appointed local counsel of the Pullman company, Colonel Elgin Lochrane having on account of ill health resigned and removed from the city. His practice from the first has been large, and he now accepts the position of judge only for the experience which it will afford, and as a stepping stone in his profession.

He was an intimate friend of the late Governor Alexander H. Stephens, Chief Justice O. A. Lochrane, and Associate Justice Samuel Hall, who occupied rooms at the Koutz house during his whole term on the supreme bench.

Electing Police Commissioners.

The election of police commissioners was one which attracted a great deal of attention. "How will you elect them, gentlemen?" asked Mayor Glenn, after the announcement of the election was made. "One at a time, or both on the same ballot?"

"Both on the same ballot," remarked Mr Hendrix, and it was so ordered. Mayor Glenn then asked for nominations.

'I desire to present the name of Captain W. H. Brotherton," said Mr. Hirsch. "I nominate Hon. J. M. Stephens, ex-coun-

cilman from the first ward," said Mr. Wood-ward. "And I present Captain James W. English," remarked Mr. McBride.

"I nominate Mr. Amos Fox," said Mr.

The clerk was instructed to call the roll, and

the vote stood:

For English—Howell, Haas, Middlebrooks,
Hutchison, Reinhardt, Hirsch, Meador, McBride, Robbins, Hulsey, McLendon, Hendrix,
Kontz, Lambert, Inman, King—16. For Brotherton—Howell, Middlebrooks Hutchison, Reinhardt, Hirsch, Kinyon, Meador

Hutchison, Reinhardt, Hirsch, Kmyon, Meador, McBride, Robbins, Hulsey, McLendon, Hen-drix, Kontz, Lambert, Inman. King—16.— For Stephens—Woodward, Kinyon—2. For Fox—Haas, Woodward—2. Mayor Glenn declared Captain English and Captain Brotherton elected police commission ers for the term of three years.

Other Work of the Council.

Mr. King introduced an ordinance fixing the places in each ward where the voting shall be done for the issue of the waterworks and sewer bonds.

They are:
First ward—Corner Broad and Mitchell streets.
Second ward—Stationhouse.
Third ward—Corner Fair and Frazier streets.
Fourth ward—Corner Decatur and Moore streets.
Fifth ward—Second door east of corner of Marietta and Foundry streets.
Sixth ward—Corner Wheat and Pryor streets.
Mr. Reinhardt introduced an ordinance directing the city clerk to notify the election commissioners, have etationery provided, tickets printed, and all other details arranged for the election.

An A Fine Portrait of Mr. Grady:

A Fine Portrait of Mr. Grady:
A magnificent portrait of Mr. Grady—one of the
best yet seen in Atlanta—was leaning
against the clerk's desk. It was presented to the city of Atlanta by Mr. L.
L. Curtis, an artist of Boston, as shown by
Mayor Glenn's communication to the council,
reading:

Mayor Glenn's communication to the reading;
"Mr. L. L. Curtis, a distinguished artist of Boston, Mass, appreciating the services rendered to both sections of our country by the late Henry W. Grady, requests me to present to the city of Atlanta a beautiful portrait which he has drawn of Mr. Grady, which is true in its likeness and exquisite in its art. The home city of Mr. Grady will certainly receive this portrait and return Mr. Curtis's thanks from our people for his kindness in presenting it.

Curtis's thanks from our people for his kindness in presenting it.

Mr. Meador handed in a resolution accepting the portrait, returning thanks of the city for the tribute to the memory of Mr. Grady and directing Mayor Glenn io have the portrait suitably framed and hung in the mayor's office.

The Addermen Disagree.

The board of aldermen sent in a paper declining to soncer in the action of the council of February 17 authorizing the expenditure of \$2,000 on such streets as may be designated by the East Atlanta Land company for the reason that the recommendation is too indefinite.

An Electric Light Company. An Electric Light Company.

The Citizens' Electric Light and Power com-pany, H. T. Beggs and John T. Davy managers asked permission to erect a steam electric light-ing power station, using the Ball system of electric lighting. Another Fire Engine House.

Mr. Howell introduced a resolution authorizing the board of fire-masters to purchase a lot on the corner of Peters and Thompson streets, and to build a fire-engine house, the entire cost being \$8,500. The resolution was adopted and subsequently concurred in by the board of aldermen.

Real Estate Auction Sale. I have 4 very important legal sales on Tuesday March 4th, and will make them in the following

The Officers of the Madison Company Make clanations—Inspectors Complain of Their Fees—Other News.

The investigation which Adjutant-General Kell instituted last Friday, into the conduct of the officers of the Madisou Home Guards, in failing to obey the governor's orders to assist the sheriff of Morgan county to protect Brown Washington from lynch law, resulted yes-terday, in two letters of explanation.

One of the letters came from Captain Mc-Henry, and contained a statement that he was away at the time the order was received, and could not possibly have reached Madison in time to be of service.

The other letter came from Licutenant God-

frey, and stated that the governor's order was not received by him until after the lynching had occurred. He claimed that his statement could be substantiated by the sheriff.

Before leaving his office, Adjutant-General

Kell wrote to the sheriff and requesced him to make a full report on the conduct of the com-pany. Should the statement prove unsatis-factory, the matter will be brought to the attention of the advisory board at their next

The inspectors of fertilizers claim that they are suffering greatly from the bill introduced by Mr. Snelson at the last legislature, which reduced the inspection fees from fifty cents to ten cents. By the former law the inspectors were required to have in twice the am their salaries before they were allowed to draw any money for their own use. This was an easy matter when the fees were fifty cents Now. that they are only ten cents, the inspect ors have had great difficulty in complying with the law. Some of the inspectors have been unable to get any of the money due them since last October.

At 12 o'clock last night the time appointed for the payment of insurance agents' fees and the fil ing of semi-annual statements, expired. According to law, four companies will be debarred from doing further business in the state unless their reports came by the mails after the capitol closed last night. Only about half of the agents have paid their tax and they will continue to do business at their own risk. This is, however, small because no notice is taken unless some one reports a special case to the authorities. the authorities.

State School Commissioner Hook will leave Atlanta today for Thomasville. Before re-turning he will thoroughly investigate the public schools of Thomas county.

THE PIEDMONT EXPOSITION STOCK. Secretary Arnold Wants the Members to Call

and Get Their Certificates. Mr. Arnold, secretary of the Piedmont Exposition company, is anxious to have those who own stock call and get their certificates The heavy labors which the exposition entails on all the officers of the company are rapidly increasing, and in a very short time the exposition will require all of the secretary's attention. He therefore wishes to get through issuing stock certificates as soon as possible, so that his other work may not be interfered with.

interfered with.

Mr. Armold said yesterday that every member of the driving club is now entited to a share of the common steck of the exposition company, and he would like those who hold one share of \$500 to exchange it for five shares of \$100 stock. The stock books are open, and at any hour of the day the certificates can be obtained.

HIS SKULL CRUSHED. The Bursting of an Emery Wheel Cause

Another Bad Accident. Young Sidney Jones came near being killed

at the Technological school yesterday.

He was at work in the mechanical department of the school, when an emery wheel burst and a portion of it struck him just over the eve, knocking him senseless and making a painful wound.

Doctors M. B. and J. C. Avary were sum

moned, and did what they could for the sufferer. The found that his skull was fractured. and that his chances of living were very slim He was sent to his home at No. 9 Wheat street, where the family physician, Dr. Manahan, was summoned and attended to his

Young Jones is a very industrious young man, and his friends hope that he will soon befully restored to health. His conditien at 2 o'clock is precarious, but he has a chance to recover, although his skull is badly fractured. His father is Mr. T. C. Jones, a traveling man, who boards at No. 9 Wheat street.

"Zo Zo" The Magic Queen. The above spectacle is announced for Friday and Saturday evenings, next and Saturday matnice at the opera house. Of the merit of this oraganization it is needless to state when the public is reminded of its previous success in this city, and informed that everything used in presenting this grand spectacle is carried by the company. The scenery which is said to be the most beautiful, has been procured, new music, songs, dances, marches, drills, etc., are introduced, also a bouquet or the most refined specialties. This cast is composed of such artists as Adah Eveyne, a pretty and talented acress; Thomas E. Mills, at comedian of note; agness and Alice Purcell, and number of others equally well-known. In speaking of "Zo Z," the New Orleans City Item says:

The popular spectacular drama, "Zozo, or the Magic Queen," was produced last night, and greeted by a crowded house. The play is very entertaining, the sublime being interrupted by the ridiculous to a pleasing and laughable extent. The spectacular productions are very clever, and the effect is dazzling. A military drill and march executed by the female support, is worthy of mention.

The acting of Agnes Puccelle as Rhododendrom, Allie Purcelle as Zeida, and Ida Lorrain as Delliah, was good. Mr. Charles Chaffin filled the role of the villain as Lorenzo, in a commendable manner, his demoniacal expressions appearing very natural.

Mr. Thomas E. Mills as Washington Knowall, Chelso Delmsre as Fred Cleverhead, and J. W. Delmore as Donovan Rossy frequently had the audience convulsed with laughter at their pranks. #### FRUITS AND FLOWERS.

THEY WILL SUFFER FROM THE RECENT BLIZZARD.

Many Flower Gardens Spoiled and Conside able Damage Done to Early Vegetables-Peaches Safe, but Pears Ruined.

The cold snap has played havoc with the early vegetable crop. It has also done not a little damage to the

fruit crop all over the state. Locally, the most serious damage is to the vegetable crop, chiefly because of the number

of market gardens in and near the city. Then, besides, many a pet table garden has been seriously hurt by the untimely breath of winter, which blew over the country the last few days, and which has not even yet entirely

Atlanta will feel this cold snap for a month or two to come. She will feel it in the absence of many of the beautiful flower gardens, in which she takes much delight. That is, it will be later in the season before a great many flowers will put forth their blooms, on account of the backset given them by the cold snap.

Not an inconsiderable number of delicate plants and shrubs were killed outright (and many a lady shed tears over their sweet graves) those only escaping which had been carefully wrapped up or placed beyond the grasp of the cutting winds.

So pleasant has been the weather all along that front yards were early dug up this year, and when the cold came all over the city beautiful flowers were already beginning to peep forth, showing their scented petals to the sunlight. Some were in full bloom, the snowy spyrea and a few pansies. The lives of these were cut short, and the morning after the first cold night the blooms had disappeared from their drooping stems.

Other plants that were out, exposed, but not in bloom or blossom, were seriously harmed. They were so injured that it will be fully a month later than usual before they recover from the shock and begin budding and

of course the greatest loss by injury to flowers and plants was sustained by those who have no greenhouses or conservatories. The nursery men lost but slightly, because of the system with which the care of their flowers is

While it is yet early enough to plant almost all veletables, still on account of the open, mild winter, and spring like weather of the last two months, quite a good deal of track gardening has been commenced by the gardeners about Atlanta. Seed has been sown very early, and up to last Friday the outlook was promising for an unusually early vegetable crop.

Mr. A. Lambertt who has an extensive truck garden, near Oakland cemetery, has had seed in the ground long enough to be entirely lost. He says he would have had radishes and beets ready for market in two weeks, but for the blizzard. That killed his whole crop, and he will now have to plant over again. While it is yet early enough to plant almost

the blizzard. That killed his whole crop, and he will now have to plant over again. He had also other vegetables far enough ad-vanced to receive injury, and he thinks all sorts of vegetables which were in the ground during the cold snap are retarded at least a month.

As to fruit, Mr. Lambert says the pear crop As to fruit, Mr. Lambert says the pear crop is undoubtedly ruined. Pears have been in blossom for sometime, but peaches have not yet began to bud, and of course, this being so, the peach crop is not hurt. A great deal of damage has been done to the plum crop, but aside from these two fruits not much serious damage has been done by the blizzard.

Reports from points in different parts of the state are about the same as about the city.

The Land Around Griffin. GRIFFIN, Ga., March 3 .- [Special.]-The cold wave that has been paying a visit for the past few days, has been one long to be remem-

bered by the fruit growers and farmers.

Your correspondent traversed an area of eighteen miles in the fruit region this afternoon, and found things in a gloomy state. Where beauty and verdure were last Friday, today is presented to the vision, trees that have the appearance of having gone into mourning. An interview with some of the more promin ent men, who are versed in the art of cultivating fruit, will prove interesting reading. And I give it, what they think of the prospects at

Mr. H. W. Hasselgas, who is the pioneer pear and grape grower of middle Georgia. and the best maker of wines as well, has this to say of the situation as it is today.
"LeCont pears are dead and no mistake,

and their yielding at this season to the cold, demonstrates the fact that they are not adapted to this climate. In my opinion it is useless to try to grow them. So far as peaches are concerned, in my opinion, the cold has not done them much damage, but the excessive the crop will not be large. Grapes? You can't kill them. They have two "eyes," and if the first one is killed, the second one will come up all right. The fact is, it is next to impossible to kill the grape in this section."

I next visited Mr. Gusatave Speth, the

horticulturist, at the Experimental farm. experience in fruit culture will entitle his opinion to consideration, His i answer to my question was "that it appeared the peach crop was off fully one-half. The cold snap is the cause of it. The pear trees are so far advanced that it will be a miracle if you see a pear grown in this sec-tion this year. Small fruit, such as berries, blackberries, etc., are not all killed but are greatly damaged, and will be later than usual, while the general fruit crop will be short. The revenue derived from it will be equal to that of a large crop-the scarcity will en-

Mr. Henry Galhouse is one of those sturdy fellows who weighs carefully what he says, and hence when he opens his mouth you may expect to hear something of interest.

"All early varieties of péaches are killed in the main. You will find a sound one occasionally, but from careexamination I ful examination I am convinced the crop is damaged more than the majority of growers are willing to concede. The later varieties are in no way affected, at present, by the cold snap, but the yield will be small comparatively, owing to the exhausted condition

from last year's crop. "The pear trees are ruined. MylLeContes are black as can be, and a week ago they were the garb of spring. Plums are not much hurt as yet, but if the present cold continues, they can-not escape the fate of the early peaches. This will prove a serious loss, too, as this fruit ships

well, and always commands a good price."

Mr. Husted, the president of the Middle Georgia Fruit Growers union, is perhaps the best posted man on the art and science of fruit in this section. His opinion will be valuable, Here is what he says: "The dry weather has kept the buds from advancing in the main, but the Eiberta peaches have advanced far enough to be cut off three-fourths. I grow the Husted, No. 16 which is a contract to the cut of three-fourths. holding three-fifths of a crop. Then there is the Alexander, Gold Coin and Susquehanna varieties that are not so seriously injured as the others, the latter showing the greatest

Continuing, Mr. Husted said: "Of late considerable attention has been paid to the growing of sonde new varieties of Japanese plums, which give good returns. These are killed, too, fully one-half or two-thirds. There is the Cumberland, a late yellow, that is not hurt. The wild goose will yield a fair crop; LeConte pears and quinces are dead. I know nothing of berries, but dou't suppose they have stood the cold. Grapes that had fairly started are dead, axil hugs and all.

One gentleman in town today offers to pay one dollar apiece for each peach grown in Spalding county this year. The small grain has not escaped, but greatly damaged, if not totally ruined. The prospects are good for a further

The Section Around Albany. ALBANY, Ga., March 3.—[Special.]—Great damage has been done the fruit crop through-out this section by the present cold snap. The injury is general, extending throughout south Georgia and Florida. Your correspondent visited the orchards in this vicinity and inter viewed the growers with the following result: Said Colonel Nelson Tift: "My LeConte and Kieffer pears are killed. My strawberries

Japan plums, figs and early vegetables are de Mr. J. R. Forrester: "I had three hundred acres in melons, all of which are killed. I do not now feel as if I had lost anything, however, as my oat crop was being literally eaten up by the Hessian fly and other insects. This cold snap will save the oats. Last year there was not a melon seed planted this early,

and I shall replant."

Mr. B. F. Wilder has a thousand LeConte trees. All the buds were destroyed. His peaches, likewise his Kieffer pears had not

Mrs. A. W. Cosby had the same experience Mr. J. R. King lost thirty acres in melons and everything he had in the way of fruit and

vegetables, including 2,000 stalks of sugar cane, 2,000 cabbage plants, pears, peaches, etc. Mr. W. H. Newsom lost 100 acres in melons. His pear trees had not bloomed out very vigorously this season, but had been covered with scattered blossoms all winter. He had many young pears fully formed and as large as the end of your finger, all of which

Mr. J. M. Tift has fifty acres in pears that had not bloomed, and appear but little hurt save the ends of the twigs and the young eaves, which are bitten down. Upon his thirty-acre vineyard all of this year's growth of the grape vines are frozen to the trunk. He has thirty acres in corn, the leaves of which killed, but the plant beneath the earth appears thrifty. The plum crop is totally destroyed. All his vegetables, save celery, are frozen.

Mr. J. M. Cutliffe lost fifty acres in melons, half of which he has already replanted. The melon growers do not regret greatly the loss of their crop, concluding generally with Mr. Forrester in the belief that the cold snap saved the crop of oats, and with the forme prospect of having melons in May, they think they would have been too early for the northern market. Their great trouble now is a scarcity of seed. This market is almost ex-

hansted The LeConte pears usually bear a second rop here, and it is hoped they will again bloom out, and bear a crop about a nonth later. Not more than half the peach trees had bloomed, and that crop will not be

more than a failure. Judge F. F. Putney, of Hardaway, lost his strawberry crop, but his other fruit was back-

ward, and not greatly hurt.

Mr. J. L. Underwood, of Pearland, near Camilla, thinks his LeConte pears were killed inla cold snap a month ago.

The Fort Valley District. FORT VALLEY, Ga., March 3 .- [Special.]-The cold wave of the past few days has played and havoc with vegetables and LeConte pears, but the opinions of the fruit men are that peaches are not hurt, and that the peach crop s safe and certain, if no later disaster overtakes it between now and maturity.

Mr. T. O. Skellie, a large grower and manager of the Georgia fruit and vegetable exchange of Macon, says the peach crop is safe so far, and the prospects are flattering for another large crop. The weather has been entirely too dry for much of the sap to rise, consequently it has not soured, as some fruitmen

"Yes, sir, peaches are safe, for very few trees have bloomed, and there never was a year when peach trees failed to bloom."

Major George T. Jones says: "The cold has not injured the peaches one particle. If anything it has been a benefit to the crop, inasmuch as it will retard the sap rising, thus making blooming later. Consequently the fruit will not be sufficiently advanced for April frost to injure it."

Mr. W. E. Brown says the cold has not injured the peach prospects any, and if the pre-vious warm and dry weather has not injured the trees, the crop is all right. I notice though some of my trees which bore the largest crops last season are dead, and am no prophet, but am in hopes of another good peach crop."

M. C.Greene says the peach crop is still safe, and that out of about five hundred buds he examined he found very few but what were sound and would bloom at the proper time, or a little late, maybe, on account of the present cold wave.

Mr. S. H. Rumph, the largest grower in the county, said yesterday: "This cold has not injured the peach any, and up to this time it is safe. I do not believe the sap has risen suffi-

ciently to sour." Captain J. B. James has examined a large number of buds, and says fully ninety-five per cent will bloom, which is over an average, and that the prospects are good for a large crop, with no future calamity. LeConte pears are killed, and I am fearful the wild goose plum will be a failure."

Captain J. A. Houser says: "This cold wave has not injured the peach crop any, but the fruit on all my LeConte pear trees is

Mr. Henry Hiley says: "Very few peach trees have bloomed yet, and, as their blooming is a certainty some time, I consider the

Mr. Ed L. Lee says: "I consider the peach crop safe so far, and, on account of this cold snap, my hopes of a large peach crop are brighter than for some weeks past."

Your correspondent interviewed all the largest and many of the smaller peach growers, and they all agree in saying the peach and and they all agree in saying the peach and grape crop is perfectly safe so far, and if it only comes out as they now predict, it means fully one hundred thousand dollars in the pockets of the peach growers of this vicinity, otherwise they will be out that amount.

The Thomas County Prospect. THOMASVILLE, Ga., March 3.—[Special.]—I nterviewed the leading fruit men today about

the effects of the freeze T. E. Blackshear said the LeConte pear crop will be almost a total failure. There might possibly be a one-tenth crop. The weather in mid-winter caused all the fruit buds to swell and many to burst in blossom. The cold snap in January destroyed all these except where the fruit had set. Sufficient young fruit escaped to make a fair yield. The recent cold caught to make a fair yield. The recent cold caught them from the size of the end of my thumb to them from the size of the end of my thumb to a small pea, and killed every one of them. The limbs seemed scorched by fire, and ap-pear withered. My prospect for strawberries was the finest I ever had, and I was gathering many quarts every day. The large rosy beauties lay upon the ground so thick they could be seen for a hundred yards. We ate frozen strawberries all day I cannot hope now to pick any more, even with fine weather, for weeks when the season for berries here will be nearly past. My loss on strawberries alone will be two thousand dollars. axil, buds and all. The crop will be medium, but fully two weeks later than ordinarily. There are those who contend that all the fruit is dead.

Japan persimmons, figs, and seedless peaches

are utterly ruined. Plums and other peacher are unhurt."

Captain Varnedoe, the father of the nov famous LeContes, said, speaking of pears: "You can't down 'em." They will come yet, and we will still have a fair crop. Millions have been killed, it is true, but enough fruit buds are left to make

H. H. Sanford, the nurseryman, is not so hopeful. "The pears are gone," said he, "they are all killed, buds, flowers, and set fruit. Late in season a few straggling flowers will appear, and make a few pears here, but the crop will be a failure." The Pear Crop Not Injured.

Boston, Ga., March 3.—[Special.]—The freeze of Saturday night has proven less disas-trous to the future pear crop than at first

Major O. P. Bennett, one of the largest growers and shippers, claims that his orchards are damaged very little, owing to the continued drought. The pear has been un-usually late this season in budding, or blossoming, and he thinks his prospects are fa-vorable for a good crop. blossoming, and he thinks his prospects are favorable for a good crop.

Mr. I. T. Stephens was next seen. His orchards were little in advance of Major Bennett's, which is due to early cultivation. Mr. Stephens, in reply to inquiry, said that his crop is injured very little, but cannot say to what extent for several days.

chosen by the citizens of Fulton county, as provided by the law passed at the last session of the general assembly.

Mr. Anthony Murphy and Mr. James D. Col-

lins were the gentlemen elected to places on the board of county commissioners by the grand jury yesterday.

They are to take up the work laid down by Colonel George W. Adair and Major M. C. Kiser, the two commissioners who retire with their expiring terms. Colonel Adair was chairman of the board, and his retirement will make necessary the reorganization of the body at its next meeting. Just which one of the five commissioners will be called to the

presiding chair is, of course, yet a matter of uncertainty.

Mr. Murphy was elected on the third ballot, and Mr. Collins on the fourth. Besides these successful candidates there were nominated before the grand jury, Messrs. Adair and Kiser, the old commissioners, and Mr. J. R. Gamling, Mr. Jacob Haas, Mr. J. T. Welham and Mr. George Winship.

Each one of these gentlemen had his friends,

but from the first count it was evident that Mr. Murphy and Mr. Collins were stronger than any of the others. One commissioner was elected at a time, eleven of the twenty-one votes of the grand jury being required to elect.

On the first ballot the vote stood: Collins 7, Murphy 6, Haas 3, Gramling 1, Adair 2, Welham, 1, Winship 0, Kiser 1.

When the second count was taken, all but Messrs. Murphy, Collins, Adair, Kiser and Haas were dropped, with the vote showing: Murphy 10, Collins 6, Adair 2, Kiser 1, Haas 2. On the third ballot, one of Mr. Haas's friends came over to Mr. Murphy, giving him eleven votes, which elected him. With the exception of this change the vote was the same as on the second ballot.

Mr. Collins received thirteen votes, electing him, on the fourth ballot, with Colonel Adair holding his 2, Haas 4, Kiser 1, Welham 1.

While the balloting was in progress, the grand jury room was surrounded by quite a crowd of anxious friends of the several candidates, and among them the election was discussed with considerable ani-

All of the old commissioners live in At-

lanta. The two new ones are residents of the country, Mr. Murphy living in East Point dis-

trict and Mr. Collins in Collins district.

The election was for the term of one year, at the expiration of which time an entire new

board will be elected, at a general county election called for that purpose. Two better men than Mr. Murphy and Mr. ns could not have been selected by the

grand jury.

Mr. Murphy came to Atlanta from De. off delphia in the fifties. He worked chinist in the state shops for several vancing and taking care of his money as he went. He put his savings into real estate, from which he has received a plenteous return.

He has always been a prominent figure in local affairs, frequently represent-ing his ward in the general council, always with advantage to his constituents and credit To Mr. Murphy, more than to any other

man, is due the credit of completing the Geor gia Western road, now the Georgia Pacific. He did a great deal of the actual hard work, riding over the proposed route through the woods on horseback, to investigate and report on the country along the line.

On his return from this trip Mr. Murphy went to New York city in the interest of the road, and to his efforts and work is mainly due the interest which was aroused in northern capital in the road, finall resulting

MURPHY AND COLLINS. TWO NEW COUNTY COMMISSIONERS

Mr. James A. Collins, was one of the first merchants in Atlanta, and lived, at the time of Mr. Collins's birth, on the Markham house lot. Mr. James D. Collins was reared in the country, and can count as many friends as any man among the "country folks." His father was an influential and well-to-do citizen of the

county before the war ended.

Mr. James D. Collins went to the war when he was fifteen years old, and served until the war ended, making a good record as a soldier. He returned home and found his father dead, his mother and family, with her property nearly all destroyed, and with nothing to live on scarcely. He went to work and assisted in the support of the family. He attended school one year and then went into the office of the late W. R. Venable, who was then clerk of the superior court.

Having an experience of twenty years in the business we can say the Spanish method of making cigars by hand is perfect; in fact, it is an art in the highest sense of the word. In making recently our annual purchase of Hayana leaf tobacco, we took particular pains to seclect just such qualities of leaf suited especially for this market, namely: a thin silky leaf; rich in color, not too light or too dark; mild and sweet in taste, coupled with that brilliancy of fragrance which is an exclusive property of the very best Cuban leaf tobacco. There is nothing bitter about this genuine Vuelta Ahaja leaf; it has not the slighest touch of rankness, and mark well, it

does not make you dry in the throat neither does it bite your tongue when you smoke it. Our cigars are for sale in aff first-class drug stores, eigar stores, saloons and restaurants and the trade is supplied from the factory at No 2 Edgewood avenue, corner Peachtree street, by A. L. CUESTA.

Scene—First Dinner to the Family Physican by Young Married Couple.

Family Physician—Do you know, there seems to be a natural flavor about this food that is most appetizing? What method do you use in cooking it?

Lady of the House—Well, Doctor, when I was at home, my mother would have no other than a Charter Oak Stove. From my earliest recollection I remembered how she would praise it, and her cooking was superb. So when we'vere married I insisted on having the same kind of stove. Of course the improvements made on them since mother bought hers, are most wonderful. Ours has all the latest, including the Wire Gauze Oren Doors. I don't understand the process exactly, but they tell me that all meats cooked in ovens with these doors, retain their juices and flavors to a much greater degree than by any other means. Can you explain the theory, Charles?

CHARLES (the Husband)—I can't remember all that was told me, but I know the Doctor can give a most clear and scientific statement of the reasons, can you not Doctor?

Doctor—Well, it is hardly professional to ask such information from a doctor; in fact, I am inclined to think he would not be helping his practice much by saying anything in favor of the Charter Oak Stoves. But as I have one in my kitchen, and know something about it, I think I can enlighten you. Of course it would take quite a long lecture to explain everything to you scientifically, and we have not time for that. Count Rumford an American, who was Knighted in Europe for his scientific attainments, pointed out, nearly a hundred years ago, that baking and roasting meats in air tight ovens was wrong, and he proved it by actual experiments. He asserted that it was as essential to health that our food should be cooked in pure, fresh air as that we should breathe pure, fresh air, and that air-tight ovens render the air impure, and the food cooked therein became tainted and unhealthy. But how to properly ventilate the oven was not discovered for many years after Count Rumford's time. The difficulty was to all

#### HAWES'S BODY BURIED.

BROTHER RAILROAD MEN ACT AS PALL-BEARERS.

Quietly, and With no Display, the Body of of the Unfortunate Man Laid to Rest Among His Kindred.

Dick Hawes's body rests at last. In the quiet precincts of Oakland cemetery is remains repose after many vicissitudes.

As was desired by his relatives the funeral

Mr. and Mrs. Jim Hawes and Mr. and Mrs. Ellison, the latter being his sister, drove out to Oakland yesterday morning and were pres-ent when the hearse, followed by a single carriage, arrived at the grave.

In that carriage were a number of old friends who had known Hawes in the older days, Mr. James D. Harris, Mr. Van Bell, Mr. John Kennedy, Mr. George Webb, Mr. John Webb and Mr. Tom Haney, who

were to act as pall-bearers. All of them, except Mr. Haney, are locomo-tive engineers, and he is a member of the At-

anta fire department. The coffin was placed in the hearse a Wylie & Barclay's undertaking establishment, and followed by the carriage, had been driven

On its arrival there the casket was tenderly removed from the hearse by the pall-bearers, and preparations were made to lower it into the new-made grave prepared for its last rest-

The grief of those who loved the dead man through all his trials and troubles, and stood by him even in his darkest hours, is something

too sacred for newspaper comment.

No services were held, and the casket was lowered into the grave without song or cere-mony, and as the cold clods were shoveled in and heaped above the dead body the friends turned weeping away, sorrowing over the sad fate of one whose life was cut short just in the prime of his manhood.

For one time the morbid curiosity of the rabble had sufficient respect for the living to restrain it, and there were only a few persons present to watch the fall of the curtain in the last act of the Hawes tragedy.

The Voyage of Life.

Life is beset by evils and changes on every side. From birth to manhood and from manhood until old age eternal vigilance is the price of health. There is one remedy that has saved many a rickety, headaching, blood poisoned, dyspeptic mortal to a life of usefulness and robust health. It is known as Dr. Bull's Sarsaparilla and it is a Sarsaparilla that is a Sarsaparilla and it is a Sarsaparilla that is a Sarsaparilla. Not a thousand doses of molasses and water for a dollar, but a concentrated essence of the best virtues of sarsaparilla and other alterative herbs. It heals, it cures where other sarsaparilla and blood remedies have no more effect than so much stagnant water. If your system craves an alterative, if water. If your system craves an alterative, if you value life you do yourself a great injustice if you fail to try this excellent remedy. De-mand it of your druggist and take no other.—

From the Everglades of Florida To the forests of Maine, malaria stalks on the mists that rise from morass, bottom land and fen. Hostetter's Stomach Bitters renders the aerlal poison innocuous, and uproots it from the system. It rectifies the liver, whose disorder is an invitation to the disease, strengthens the nerves, and fortifies the system generally. It remedies, also, rheumatism, billiousness, kldney complaints and

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these quantities, Syrup of Figs is the one perfect laxative and most

gentle diuretic known. PALPITATION of the heart, nervousness, tremblings, nervous headache, cold hands and feet, pain in the back, and other forms of weakness are relieved by Carter's Iron Pills, made pecially for the blood, nerves and complexion. Depend upon it, Mothers, Mrs. Winslow's SOOTHING SYRUP, for all diseases of children, is a safe and sure medicine. 25 cents a

tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Gentre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full credence."—O. P. Chamberlain, G. W. Waring, C. A. Wells, Druggist.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Almanac and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Attewell, Sharbot Lake, Ontario.

#### The Former Capitol of Georgia

This grand building, four stories high, upon an elegant basement, fronts Marietta street 150 feet, running south along Forsyth street 100 feet to a 15-foot alley. What a magnificent hotel this would make, with five elegant stores on Marietta street to rent, at \$1.500 each. This property is on one of the most public and valuable corners in the city of Atlanta, and could be converted into a first-class hotel, fronting on Forsyth street, at very small expense; the immense basement would be just right for storerooms, barroom and billiards, and would rent for big money. This great corner, is the most desirable spot in Atlanta for a city hall. With its comfortable offices now ready for occupancy, and those spacious halls sufficient to accommodate thousands of our citizens. We have no place now half large enough.

This building was originally planned and designed for an opera house, with sufficient capacity to seat thousands. There is no site superior to this, and a little money would accomplish the necessary change. The 150 feet front on Marietta street, without the building, the ground alone is well worth \$800 per front foot.

I will sell all the iron safes, vaults and appurtenances at the same time and place. No bid for less than \$125,000 will he received. Sale one-half cash, balance one and two years, eight per cent interest. Here is a fine opportunity for a syndicate to invest and make big money.

J. O. Gibson, Meridian, Miss., writes: "For a number of years I suffered untold agonies from blood poison. Several prominent physicians did me little if any good. I began to use B. B. With yers little faith has to see the second very little faith, but, to my utter surprise it has

yery htts: fatth, but, to my utter surpmes it has made me a well and hearty person."

Z. T. Hallerton, Macon, Ga., writes: "I contracted blood poison. I first tried physicians, and then went to Hot Springs. I returned home a ruined man, physically. Nothing seemed to do me any good. My mother persuaded me to try B. B. B. To my utter astonishment every ulcer quickly healed."

Beni, Morris, Atlanta, Ga., writes: "I suffered years from syphilitic blood poison, which refused to be cured by all treatment. Physicians pronounced it a hopeless case. I had no appetite. I had pains in hips and joints, and my kidneys were diseased. My throat was ulcerated and my breast a mass of running sores. In this condition I com-menced a use of B. B. B. It healed every ulcer and sore and cured me completely within two months.

FACTS FOR THE SICK

A Letter From an Eminent Divine.

Six months ago the writer of the foliowing communication published a letter, in regard to his wonderful cure of Catarrh by Dr. King's Royal Germetuer. In a second letter prompted by inquiries from every quarter of the nation, under date of January 2, he writes:

"I am free from Catarrh. I believe that I could get a certificate to this effect from any competent physician. I have used no medicine within the last six months except King's Royal Germetuer. My health is better than it has been in thirty years. I am in possession of information which warrants me in saying that the relief which I have experienced from the use of the medicine is not more certain and radical than that which it has brought to hundreds of persons in Georgia and other states.

more certain and radical than that which it has brought to hundreds of persons in Georgia and other states.

I feel it to be my duty to say, also, that the effects of this remedy upon my wife have been even ore signal and wonderful. She has been almost bife-long invalid from Nervous Headache, Nealigaahd Rheumatism. In a period of thirty hears she has searcely had a day's exemption from pain. She has been using Germetuer about two months. A more complete transformation I have never witnessed. Every symptom of disease has disappeared. She appears to be twenty years younger, and is as happy and playtul as a healthy child. We have persuaded many of our friends to take the medicine, and the tentimony of all of them is that is a great remedy."

Pastor First Baptist Church. Atlanta, Ga. Royal Germetuer builds up from the first dose, the patient quickly feeling its invigorating and health-giving influence. If increases the appetite, aids digestion, clears the complexion, regulates the liver, kidneys, etc., and speedily brings bloom to the cheek, strength to the body and joy to the heart. For weak and debilitated females it is without a rival or a peer.

If you are suffering with disease and fail of a cure, send stamp for printed matter, certificates etc.

The Day on the Ploor of the New York Stock

Exchange.

NEW YORK, Marsh 3.—Dullness and stagnation erer again the lea ling features of the stock market oday. The general tone of the day was heaw, altoday. The general tone of the day was heave, at-though gains in opening prices and recoveries later on in the day leave prices generally better than last Saturday's figures. The closeness of money was the principal cause of heaviness in the early trading, but this was entirely done away with before the close, and loans on call were after wards made as low as one per cent. The chance of any extension of the improved feeling in Wall street, however, is slight, until some news bearstreet, however, is slight, that some news oearing upon the financial situation comes from Washington or there shall be a marked change for the
better in the monetary situation. Weakness in sterling exchange rates today was encouraging to the bulls, as
they are now brought down to near the gold importing point. The outlook is also improved from
the fact that the probability is great that the government disbursements through increased appro-priations for coast defences, naval reserves, pen-sions and harbor and land improvements, will exceed the absorption of money from revenues. The news of the day contained some discouraging items from Chicago, but dispatches from that center, as a rule, were not so pessimistic as usual of late and influences worked upon the market outside of the aggressions of the local bear con-tingent were of small weight. The agitation of question of the Postal telegraph induced an at-tack upon Western Union and a decline of one per cent was at one time established, but a por-tion of it was afterward recovered. St. Paul also came in for some pressure upon the news that \$1,000,000 bonds, which were supposed to have been taken, had not been sold, but officers of the nt was at one time established, but a por been taken, had not been sold, but officers of the company say that it has no bonds for safe. Tennessee coal was unusually strong in early dealings, but lost all of the improvement later in the day, while sugar was sold down at first, but rallied sharply toward the close, and stands alone this evening in showing a marked 'improvement over Saturday's clese. The rest of the market was generally dull-and steady, though Rock Island, Union Passific and Louiszille and Nashyllle was converted. Pacific and Louisville and Nashville were compar atively active and strong. In the unlisted department sugar shows a gain of one per cent, but other

changes, while generally in upward direction, are all for insignificant fractions. Sales of listed ag-gregated 151,000. Exchange quiet and weak at 481@485. Money easy at 1@6, closing offered at 2. Subtreasury balances: Coin \$163,382,000; cur-

Hubbard, Price & Co.'s Circular. NEW YORK, March 3—[Special]—Tenders of some 10,000 bales on March contracts is the cause some 10,000 bales on March contracts is the cause to which the slight decline in Liverpool today is attributed. Futures there are 1-54d lower. Spot sales 6,000 bales. The Manchester dispatch reads: "Yarns, small inquiry; cloths in buyers' favor." Here the market has been exceedingly dull the entire day, and after a very small business closes at about Saturday's prices. Receipts, notwithstanding a very light movement at New Orleans, foot up a fairly large total, being 9,288 bales, against 21,301 last week and 10,810 bales last year. The movement at the interior towns of Augusta, Memphis, St. Louis and Cincinnati, 111, 331, 330,

1,223 hales, against 261, 2,848, 1,069, 2,587 bales last year. By some the small movement is attributed to the bad weather pr.vailing throughout the south, especially in the southwest. As the course of prices in the future is becoming more and more manifestly dependent upon the condition of trade we venture to quote as follows from letters today received by us: "Fall River, March 1—Goods are selling at a decline, with little or no call for them. Print cloths selling for 3%c, 1 per cent, at which prices they pay an actual loss at present price of cotton, and wide goods are in no price or demand." "Liverpool, February 22—The fall in yarn has been considerable—say %d from the highest rate—and the margin for spinners is very small, if not in some cases an actual loss if made between the purchase of cotton and sale of yarn on the same date."

THE CHICAGO MARKET. Features of the Speculative Movement in

Features of the Speculative Movement in Grain and Provisions.

CHICAGO, March 3—Trading in wheat was active and the market was firm. A larger business was transacted than for some time. A prominent local trader was reported as having sold freely most of the day, but the market absorbed offerings and prices reached a higher point with each reaction. The market opened at about the closing figures of Saturday, eased off about ¼c, then with some fluctuations advanced 2½c, receded slightly and closed about ¾c higher than Saturday. Cables were encouraging to holders. All news, in fact, favored the buils.

Corn was traded in to a moderate extent at slightly higher prices, the market ruling firmer in

slightly higher prices, the market ruling firmer in sympathy with the advance in wheat. A large lo-cal packer and warehouse man was a rather free seller on today's bulge. The market opened at Saturday's closing prices, was steady, but soon became stronger and advanced %c, eased off some and closed a shade better tdan Saturday.

Oats were traded in quite freely for May, but the Oats were traded in quite freely for May, but the other deliveries were slow. A firmer feeling developed and prices advanced %c for May, and the market closed steady at intermediate prices. The more distant outures sympathized with May, but price changes were small.

Mess pork—A fairly active trade was reported, and the feeling was steadier. Early the feeling was easy and prices receded 5c, but this was quickly recovered, and the market closed steady at outside figures.

Lard—A stronger feeling was developed, owing to stocks being reported lighter than generally anticipated. On the whole range prices were advanced 2½@5c, and the improvement was fairly well supported.

Short rib sides—A fairly active trade was reported, and the feeling was firmer. Prices advanced 2½-@5c and closed steady.
